

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Options for Youth Victor Valley

CDS Code: 36679343630670

Local Control and Accountability Plan (LCAP) Year: 2019-20

LEA contact information: Bryan Gillespie(626) 685-9300bgillespie@ofy.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2019-20 LCAP Year

This chart shows the total general purpose revenue Options for Youth Victor Valley expects to receive in the coming year from all sources.

The total revenue projected for Options for Youth Victor Valley is \$13,089,455.00, of which \$12,854,766.00 is Local Control Funding Formula (LCFF), \$234,689.00 is other state funds, \$0.00 is local funds, and \$0.00 is federal funds. Of the \$12,854,766.00 in LCFF Funds, \$2,938,490.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

LCFF Budget Overview for Parents

This chart provides a quick summary of how much Options for Youth Victor Valley plans to spend for 2019-20. It shows how much of the total is tied to planned actions and services in the LCAP.

Options for Youth Victor Valley plans to spend \$13,019,910.00 for the 2019-20 school year. Of that amount, \$2,938,490.00 is tied to actions/services in the LCAP and \$10,081,420.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

General Fund Budget Expenditures, for the 2019-20 LCAP year that are not included in the LCAP cover a number of operational and business costs. These costs include but are not limited to non-instructional staff salaries, staff business expenses (i.e. office supplies and technology), other student information system upgrades and data tracking improvements, facilities and maintenance, rent, general business expenses (i.e. taxes and licensing costs), management fees, and district administrative fees. Additionally, most of the budgeted expenditures identified in the LCAP that require additional funding outside of that which is budgeted for the year (based on anticipated LCFF revenues) will also be covered by the General Fund.

Increased or Improved Services for High Needs Students in 2019-20

In 2019-20, Options for Youth Victor Valley is projecting it will receive \$2,938,490.00 based on the enrollment of foster youth, English learner, and low-income students. Options for Youth Victor Valley must demonstrate the planned actions and services will increase or improve services for high needs students compared to the services all students receive in proportion to the increased funding it receives for high needs students. In the LCAP, Options for Youth Victor Valley plans to spend \$2,938,490.00 on actions to meet this requirement.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2018-19

This chart compares what Options for Youth Victor Valley budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Options for Youth Victor Valley estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2018-19, Options for Youth Victor Valley's LCAP budgeted \$3,171,890.00 for planned actions to increase or improve services for high needs students. Options for Youth Victor Valley estimates that it will actually spend \$6,221,273.00 for actions to increase or improve services for high needs students in 2018-19.

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

Educational Philosophy:

Options for Youth provides educational opportunities for those students most at-risk of reaching adulthood without the knowledge, skills, and attributes required to enjoy productive and fulfilling lives. The Options for Youth learning centers offer students an opportunity to recover academically and get back on track to receive a high school diploma. Additionally, our learning centers provide an education that increases students' options upon graduation for either post-secondary learning or entering the professional market.

Educational Program:

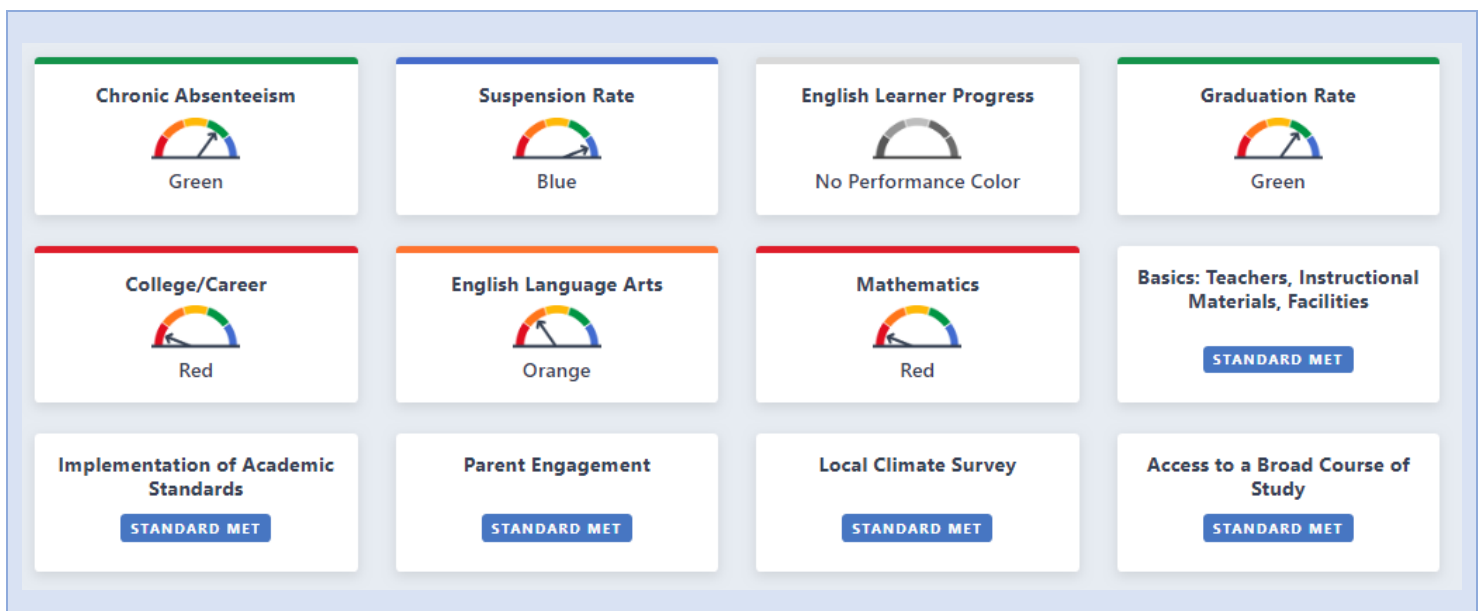

The paramount goals for Options for Youth are: (i) to offer a comprehensive learning experience under the Common Core State Standards to students, (ii) to identify students who are not being served in the traditional public school system and provide them educational services; and (iii) to help students become self-motivated, competent, lifelong learners. The program also strives to provide pupils and parents expanded education choices within California's public school system. We believe that students should be involved in the planning and implementation of their own educational program in order to take responsibility for their own lives. Our program is designed so that students work within an educational environment in which they learn best, thereby avoiding boredom and frustration. Through the use of standards-based assignments broken into manageable units, students receive immediate feedback and continuous encouragement that will build success and lead to great self-confidence. In addition, the academic and behavioral standards to which students are held help develop self-discipline and productive work habits.

Mission:

The mission of Options for Youth is to create an educational choice for all students. Our staff connect with students to empower and inspire them to achieve their goals and make their dreams a reality. Options for Youth will assist students as they develop supportive relationships that enable them to manage work life, and familial responsibilities. Our vision is to re-engage students by giving them the skills and the confidence to become lifelong learners who contribute to their community.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

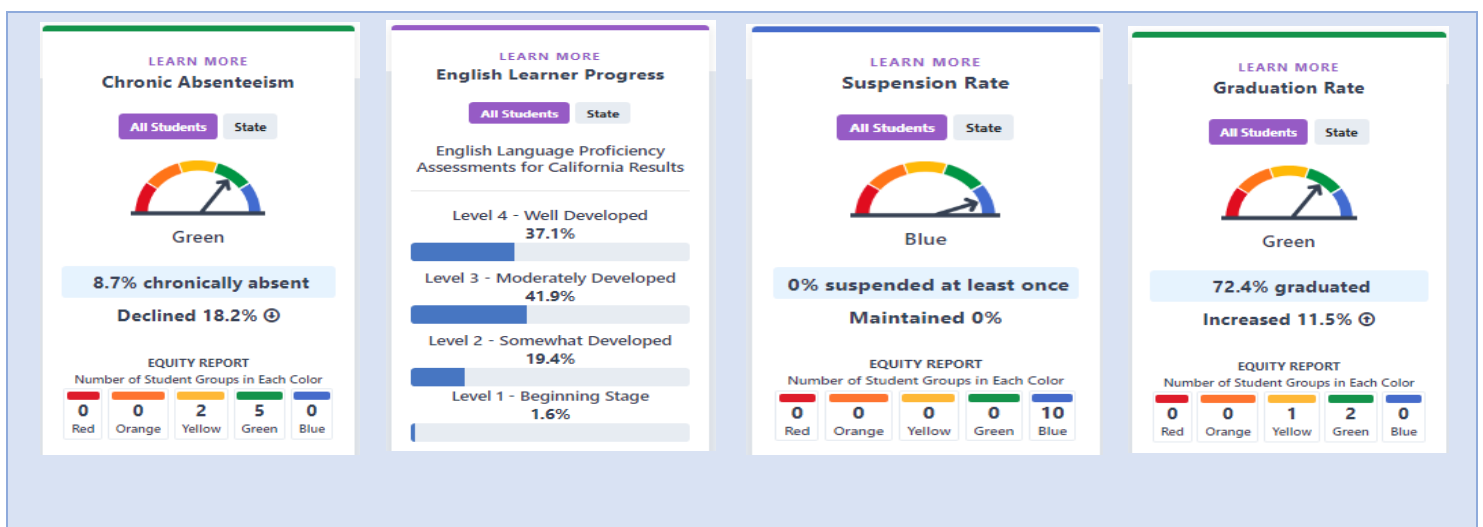

The OFY Victorville Charter will be working toward closing the opportunity gap between student groups in the 2019-20 LCAP year through a number of strategic efforts. Much of our focus in the upcoming year will be geared toward advancing the work and achievements of the 2018-19 school year. We will also be focusing on improving in our CSI goals of increasing our 3-year average graduation rate, Career and College Readiness, and increasing student performance in Math and English. We will accomplish this through PLCs, trainings, and the implementation of Achieve 3000 and Accelerated Math. Many of our targeted metrics will show growth and improvement over the past two years. For example, we will continue working diligently toward ensuring that students are completing coursework and progressing toward academic milestones such as English learner reclassification, graduation and core course completion. We will also focus our efforts on promoting active engagement in our program through social-emotional development, extra-curricular curriculum including activities and stakeholder involvement offerings. Additionally, our targeted academic growth priority will be core course completion this year, so as to ultimately increase student mastery of material and performance on standardized assessments and advancing toward reclassification and graduation. This will be done by providing students with access to specialized support staff, the development and coaching of our instructional staff, improving our curriculum and instruction offerings, and regularly assessing student's growth and performance. Other actions and services to be provided in working toward achieving these goals and metrics include events for students, school programming, student academic resources, curriculum development, stakeholder engagement events and materials to improve student engagement. We identified two resource inequities in our program. We identified a resource inequity in how we implemented these two intervention programs in the current school year. We are allocating more resources to support the school wide implementation and the staff trainings required for these two programs for all students in academic need.

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the California School Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

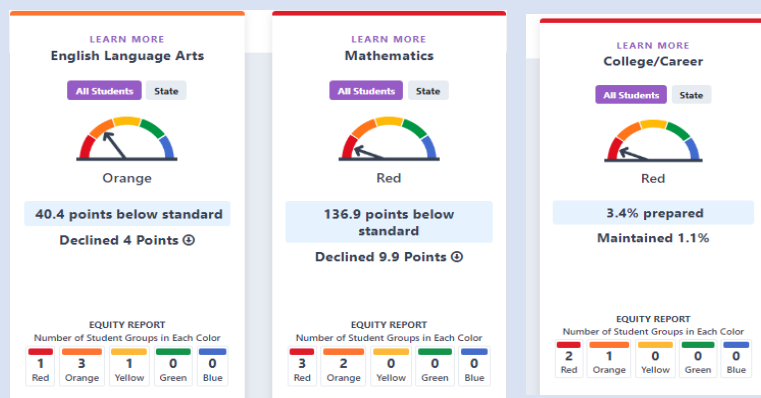

We regularly monitor our Local Indicators and update staff on progress at both charter level and school site level meetings. This level of awareness helps us to meet our local indicators regularly. Because Options for Youth students have strong, meaningful relationships with their teachers, we do not observe the same behavior challenges a student may exhibit in other settings. Students meet one-on-one with a professional twice per week to move towards achieving their goals. This enables students and teachers to build relationships that center around trust and mutual respect. For this reason, we have been able to keep our suspension rate at 0% for the 2018-2019 school year.

The use of Intervention teachers at the school sites have helped us in this area. The Assistant Principals regularly monitor the progress of the students at their school sites. We hired an additional Student Advisor to support our region. This has had a positive impact on our graduation rate. We are able to better track and follow up with our seniors. We have added additional support in our region to meet this goal. We have dedicated staff member supporting EL students at each of our locations. We also have an EL Coach that supports the EL Specialists. The focus of the team is in building skills that will help students to achieve reclassification, in addition to meeting their other academic goals.

Referring to the California School Dashboard, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the LEA received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

College and Career Readiness The number of students who are college and/or career ready has increased by 1.2%, but the total percentage of students prepared is low. The percentage of students on an A-G path and are taking AP level courses and examinations can be improved. The nature of our program in accepting all students with the majority being those who are over-age and under-credit makes this metric a challenge. Students who are behind in credits tend to choose to either go into the

workforce after high school or attend a community college. However, OFY Victorville offers an A-G path to all students and is providing AP classes in English. We will be offering additional CTE opportunities to our students over the next school year. We will also be implementing a dual enrollment program with Victor Valley College.

Mathematics Math continues to be our greatest area of need. We implemented a new Math Curriculum last year, adding Integrated Math 1. This was suggested by our Chartering District. We have changed the order of that the students take math classes to better align with the concepts that are on the SBAC test. The students take Integrated Math 1, then Algebra 2, and then Geometry. We have added SBAC prep for students, as well as imbedding those concepts in our instruction throughout the year. We have changed our lesson planning process to insure that we meeting the needs of our students. We will be adding the Accelerated Math to support our students that are performing at a level 1 academically on our Ren Star test. This test is taken 3 times a year by our students. Our Student Intervention Team will follow up with students on a monthly basis.

English We use ERWC Curriculum for our English classes. We have recently added this curriculum to our Jr High students to provide a better alignment with what they will learn in high school. In the next year, we will be sending all of our English teacher to an updated training on the ERWC Curriculum. We have changed our lesson planning process to insure that we meeting the needs of our students. We will be adding the Achieve 3000 to support our students that are performing at a level 1 academically on our Ren Star test. This test is taken 3 times a year by our students. Our Student Intervention Team will follow up with students on a monthly basis.

Referring to the California School Dashboard, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

According to the California School Dashboard for OFY Victorville charter, there are no state indicators for which performance for any student group falls two or more performance levels below “all student” performance. All state indicators show performance amongst student groups as the same as “all student” performance. As a charter, we will continue to monitor student group data and ensure that supports, actions, and services are being provided equitably as outlined in the LCAP.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts.

Schools Identified

Identify the schools within the LEA that have been identified for CSI.

Options for Youth-Victorville

Support for Identified Schools:

Describe how the LEA supported the identified schools in developing CSI plans that included a school level needs assessment, evidence based interventions and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

LEA supported identified schools in developing CSI plans by using the CA Dashboard results and the WASC Accreditation Self-Study findings and the Visiting Team schoolwide growth areas for continuous improvement recommendations as the school-level needs assessment. A CSI plan was developed using this data and subsequent analysis, including the identification of evidence-based interventions and resources identified for implementation. We are selected Achieve 3000 and Accelerated Math because we were already utilizing these two interventions with our EL students. Based on the academic success of the EL students we have decided to implement these programs to support all of our struggling students. We identified two resource inequities in our program. We identified a resource inequity in how we implemented these two intervention programs in the current school year. We are allocating more resources to support the school wide implementation and the staff trainings required for these two programs for all students in academic need.

Monitoring and Evaluating Effectiveness:

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

LEA will monitor the implementation and effectiveness of the CSI plan through identified quarterly monitoring cycles and provide an annual analysis of implementation progress and impact on student learning. The LEA will work with staff to coordinate data reflection and reporting on progress to support implementation progress and provide feedback of impact on student outcomes. Students will be identified by their performance on RenSTAR testing. This test is taken by students three times a year. Students that score at a level 1 will be given additional support with Achieve 3000 and/or Accelerated Math. The Student Intervention Team will monitor the academic progress of students on a monthly basis. This will be accomplished by measuring student unit completion. The Student Intervention Team will also Monitor student academic growth by analyzing their score on the next administration of the RenSTAR test. This will determine if the student needs continued specific academic support with Achieve 300 and/or Accelerated Math. The overall success of this programs will be measured by growth in our grad rate, English proficiency, and Math proficiency on the State Dashboard.

Annual Update

LCAP Year Reviewed: 2018-19

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Goal 1

Credit completion towards graduation is accomplished through an overall reduction in absenteeism for all students.

State and/or Local Priorities addressed by this goal:

State Priorities: 2, 4, 5, 8

Local Priorities: Not applicable

Annual Measurable Outcomes

Expected	Actual
A. For all CBEDS students, student progression will average at least 83.5% overall.	For all CBEDS students, student progression averaged 90.01% overall.
B. For all CBEDS English learners, student progression will average at least 82.5% overall.	For all CBEDS English learners, student progression averaged 96.04% overall
C. For all CBEDS low income students, student progression will average at least 83.5% overall.	For all CBEDS low income students, student progression averaged 88.06% overall.
D. At least 80% of our foster youth will have an Individualized Learning Plan (ILP) that considers AB 216 qualifications.	84% of our foster youth have an Individualized Learning Plan (ILP) that considers AB 216 qualifications.
E. The charter aims to maintain current reclassification percentages at or above 20% during the implementation of the English Language Proficiency Assessments for California (ELPAC) in the 2018-2019 academic year. A baseline will be established for reclassification percentages of English learners that have taken the ELPAC	Of English Language Learners eligible for reclassification, 52.17% were reclassified.

F. English learners will be offered additional and improved specialized instruction in ELD and Common Core State Standards in order to move toward reclassification.	English learners were offered additional and improved specialized instruction in ELD and Common Core State Standards in order to move toward reclassification.
G. The middle school and high school drop-out rate will be decreased by at least 0.5%. Such that the middle school drop-out rate be no more than 2.32%, and the high school drop-out rate be no more than 4.07%. We have modified our calculation of drop-rates for the 2018-19 school year to better reflect our leave code process.	<ul style="list-style-type: none"> As of May 9,2019, the middle school drop-out rate was 1.82%. As of May 9,2019, the high school drop-out rate was 5.08%. There are still 8 academic school weeks left in the 2018-19 school year and we anticipate meeting this goal as of June 30, 2019.

Actions / Services

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Through the implementation of our actions/services listed for LCAP Goal 1, the charter was able to meet its expected measurable outcomes through several different avenues which included but were not limited to:

- *Addition of Intervention Teachers*
- *Assistant Principal regularly monitoring student attendance and work*
- *Additional EL Support for each school site*
- *Additional Student Advisor to support Foster Youth population*
- *Use of a Restorative Justice approach in discipline to keep suspension rates low*

Maintenance, retention and recruitment of instructional staff: We have ensured that all teaching staff have earned or maintained a clear single subject credential. We hold professional development opportunities throughout our school year, provide leadership opportunities, and staff engagement opportunities such as chaperoning trips, taking part in curriculum pilots, and having charter wide in-services.

Materials to improve student achievement and engagement: The materials that we have provided to improve student achievement and engagement are healthy food options that align with our Wellness Program, school spirit wear, and transportation assistance.

Professional Development coaching including but not limited to: Professional development, coaching of our Instructional staff to ensure they provide individualized, standards-aligned instruction. Professional development coaching for newly hired staff. Professional Learning Communities

Student academic resources including but not limited to: Online educational programs including those that support EL reclassification such as Achieve 3000 curriculum has been utilized in order to provide specific instructional support to EL students and RenStar software has been adopted by our organization in order to measure learning throughout our school year in the areas of Math and Reading. Student planners have been heavily utilized in order to provide students a tool that will keep them organized and create a unique monthly academic plan. In working with our curriculum department, we have further updated courses and found new web links to those that have become outdated. Our teacher feedback regarding course improvements have been taken into account and these have resulted in further accessibility in our curriculum and the improvement of test questions.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

All of our actions and services were principally directed toward low income, English learners and foster youth students and were offered school wide.

Through **maintenance, retention and recruitment of instructional staff** addresses our subgroup of students need for individualized specialized instructional staff and the development of positive trusting relationships with adults. When we are able to retain teachers that students have built a trusting and positive relationship with, they stay with our program longer and complete

coursework at a more efficient pace. Overall, students are also more willing to participate in extra-curricular activities, which in turn improves their engagement, achievement and overall school culture. By increasing opportunities for communication and input, through surveys, the overall morale has been improved amongst our instructional staff. Organized professional learning communities and additional prep time in the schedule has shown to be effective in developing staff that is more confident and proficient in teaching both independent study and direct instruction. This has also boosted collaboration between staff and has helped establish better data-driven practice. Specialized professional development coaching offerings, specialized staffing positions such as EL Specialists, EL Coaches, Instructional Coaches, Intervention Specialists, and tutors has shown to positively impact student subgroup performance (i.e. progression). As all subgroups of our students participate in the same curriculum and educational experience as any other student, it is vital that they have access to these support staff members in order to support their individualized needs. Additionally, these positions have worked closely with our foster students in completing and implementing their Individualized Learning Plans which have also been effective in increasing their sense of connectedness to our school and their academic success in our program.

Professional development coaching was effective by ensuring our staff is equipped with the skills necessary to provide individualized, standards-aligned instruction to our students. Professional development coaching offerings were crucial to our students' academic success therefore offerings were available to all instructional staff. Through these offerings our instructional staff will have gained the tools and knowledge to prepare our students and aid their success in our program, on standardized benchmark and course mastery. Staff also gained the tools to ensure students are mastering their completion of core courses. When our instructional staff is coached and given the tools and knowledge to improve their teaching skills in order to provide individualized, standards-aligned instruction, students have a higher likelihood of achieving their monthly academic requirements (i.e. progression, which was above 80% for our subgroup of students). Our PD Coaches are dedicated to continuous improvement of our program and training our newly hired staff. Much of their time was dedicated to prioritizing, coordinating, and monitoring our instructional staff's student outcomes monthly. Coaching increased educator effectiveness which results in students' success as evidenced by our average credit completion for all core course being over 4.7 and as high as 6 credits earned in the school year which is an increase over 2017-18 averages being 4.5-5.5 credits earn in core courses in the school year. In order to continue supporting the majority of our student population, those which fall into one of our student subgroups, it is important that we maintain and/or develop the PD coaches as our program is one that supports a general mainstream educational experience in an individualized way.

Student academic resources were effective by providing students with access to academic resources such as textbooks, workbooks, other course materials, technology, and educational software, we ensure that there are no obstacles inhibiting full engagement in coursework. This is especially important for our foster, homeless, and low income student subgroups, as many of them do not have access to such technologies and resources outside of the learning center. In order for students in our subgroups to access intervention support services and resources, they also need access to these resources, thus supporting their overall academic success in the program and beyond. Since our curriculum and coursework expectations are the same for all students, regardless of their ability level or subgroup identification, it is necessary for all students to have access to basic resources in order to complete coursework and assessments. By implementing the use of Google academic suite (i.e. email, drive, classrooms, etc.), we are ensuring that every student can develop 21st century learning and life skills. Much of our curriculum embeds the use of this software into the educational experience, which has proven to increase student familiarity and success with digital platforms for research, communication,

collaboration, and state assessments. Our EL support team was able to closely track and monitor students in their reclassification process so as to efficiently utilize time and resources toward promoting language proficiency.

Materials to improve student achievement and engagement was effective by providing students with basic resources such as food, school spirit wear and transportation assistance, we ensure that students are able to be fully present and engaged while in our learning centers. This is especially important for our subgroup students, particularly our low-income and foster youth populations, because they often go without these amenities. When students go without food and are hungry, they are often distracted and not fully present and participating in their coursework. By having healthy food options available through our Wellness Program, we not only quickly re-engage them in their learning but it is also effective in preventing them from leaving the center during work times in order to get food. We were also effective in using this opportunity to teach students about making healthy nutritional choices. In order to work toward reducing absenteeism, as Goal 1 states, we assist students with public transportation and achieved a 1.82% drop-out rate for our middle school students. Again, it is often our subgroup students and their families that do not have the means to provide this for themselves. One of our highest priorities is to ensure that all students feel welcomed and connected to our school community. We have seen that students who are actively engaged in our program outperform their peers in a variety of ways. One way in which we promote positive school climate and feelings of belonging within our student population is by providing school spirit wear. Students who fall within one or more of our subgroups would not otherwise be able to purchase these items for themselves and may feel excluded from fully participating in the school experience. By making school spirit wear available to all students, we ensure that those feelings of belonging and connection are accessible to everyone. By nature of our student demographic breakdowns, the majority of those that benefit from these offerings fall within at least one of our student subgroups.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Budgeted amounts for the above actions and services were based on projected LCFF supplemental and concentration revenues for the 2018-2019 school year. In order to fully implement these services, additional funds outside of LCFF supplemental and concentration amounts were needed. Thus, what is reported in actual spending also includes portions of the general fund for the charter.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

No changes were made to this goal. Expected outcomes, metrics, and planned actions and services were unchanged throughout the 2018-2019 LCAP year. There are still 8 academic school weeks left in the 2018-19 school year and we anticipate meeting all goals as of June 30, 2019. Continuous monitoring of internal program and student success data throughout the year allowed for the successful implementation of this goal.

Goal 2

Students will receive support and instruction focused on social-emotional development in order to increase graduation rates and better prepare students for their post-secondary pathways.

State and/or Local Priorities addressed by this goal:

State Priorities: 3, 5, 6, 8

Local Priorities: Not applicable

Annual Measurable Outcomes

Expected	Actual
A. At least 38% of CBEDS students will participate in extracurricular activities or complete a course designed to develop their social-emotional skills.	52.86% of CBEDS students participated in extra-curricular activities or completed a course designed to develop their social-emotional skills.
B. At least 81.5% of eligible CBEDS seniors will either earn a diploma with us or will transfer back to another school program on track to graduate.	As of May 9, 2019, 75.56% of eligible CBEDS seniors earned a diploma with us or transferred back to another school program on track to graduate. There are still 8 academic school weeks left in the 2018-19 school year and we anticipate meeting this goal as of June 30, 2019, with a projected graduation rate of 93.33%.
C. The charter will hold at least one senior signing event.	The charter held their senior signing event on May 14, 2019.
D. The Comprehensive School Climate Inventory will be administered in Spring 2019, we will work towards improving staff, parent, and student perceptions of safety and connectedness in our learning centers. We will increase our staff, parent, and student perceptions of safety and connectedness by at least 0.5% from the 2017 CSCI survey results.	Our School Climate Survey (CSCI) was administered April 1, 2019 - April 23, 2019. As of May 9, 2019 Results are still being analyzed by the National School Climate Center, therefore results are pending. Updates will be given once we receive the results from the National School Climate Center. <ul style="list-style-type: none">• In Spring 2017, 91.27% of students, 96.10% of staff, and 37.57% of parents participated in the survey. In Spring 2019, 89.71% of students, 90.70% of staff, and 11.22% of parents participated in the survey

E. The charter will hold at least 2 family engagement nights	The charter held more than 2 family engagement nights.
F. The Charter will hold at least 2 Staff LCAP focus group meetings.	The charter held 2 Staff LCAP focus group meetings.

Actions / Services

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Through the implementation of our actions/services listed for LCAP goal 2, the charter was able to meet its expected measurable outcomes through several different avenues which included but were not limited to:

- *Increased the number of Social Emotional Activities for students*
- *Additional Student Advisor to support Grad Rate*
- *Increased the number of events to get parental involvement*
- *Engineering and Design Challenge*
- *Senior Signing Night*
- *EL Celebration Dinner*
- *Jr High Promotion Ceremony*

Implementation of **events for student success** was done through a few different avenues. Events for student success that were implemented in the 2018-19 school year included award banquets, celebrations for academic accomplishments (Appendix A), senior nights, graduation, school dances and more. Implementing these type of events provided opportunities for parents and students to be in our learning centers and engage with our school community outside of appointment times in support of fulfilling students' needs in reaching their graduation and post-secondary goals.

Implementation of **school programs** offered included experiential learning camps, field trips, sports, and student leadership groups which increased student engagement in their school experience. All of these offerings provided either academic coursework or social-emotional development as a well-rounded educational experience supporting the improvement of student outcomes. OFY Victorville has sports programs that run year around. We offer a Pathways experiential trip once per month, and we have college tours and day field trips throughout the year.

Implementation of **stakeholder engagement events** offered parents a gateway into becoming a vital partner in their students' academic success. Additionally, these events were utilized as a platform for promoting positive perceptions of the school environment amongst all stakeholders. OFY Victorville held a total of four stakeholder engagement events throughout the year.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

All of our actions and services were principally directed toward low income, English learners and foster youth students and were offered school wide.

Stakeholder engagement events such as open house, focus group meetings, community partnership events, and resource and career fairs were effective as they provided a time in which parents and students were able to interact with our school administrative and instructional staff outside of appointment times. Stakeholder engagement events were also effective in offering the opportunity for parents to discuss their student's academic progress in light of their post-secondary goals. This was also a time in which all stakeholders came together and agreed upon interventions, additional support resources, and other individualized student needs in order to ensure success. Many times, these conversations were tailored to identifying and fulfilling the needs of our student subgroups on an individualized basis. These events also provided information and resources specific to student subgroup needs. For example, many of the efforts in these events will be geared toward connecting students and families with low income governmental support programs, foster youth services, homeless services, and other general community resources in the area (i.e. public libraries, transportation services, childcare services, etc.). Focus group meetings will be held to support our LCAP process and were utilized to both educate students and parents as well as seek input toward program improvement, especially for our student subgroups. These events make it possible for parents to be an active partner in their student's academic success and post-secondary career options, and to build a foundation of trust and respect between their student and our instructional staff. Additionally, these events were utilized as a platform for promoting positive perceptions of the school environment amongst all stakeholders.

School programs such as experiential learning trips and camps, sports, groups, and field trips were an effective way to boost student morale, connectedness to our program. It is also a way to help our students see the world in ways they might not ever get a chance to as they provide students with a unique learning experience outside of the classroom in which they are able to apply academic and social-emotional skills toward real-life situations. Students within one or more of the subgroup categories would often not otherwise be able to afford an experiential learning trip away from home. However, the experience and curriculum offered on these experiential learning trips have proven to grow students socially, emotionally, and academically. We have seen students re-engage in our program significantly after returning from these trips, which impacts their work product and academic performance in highly positive ways. This is especially the case for our student subgroups, as these programs offer them an opportunity to find connection and belonging within our school. Involvement in field trips and other extra-curricular activities provide our subgroup students with an opportunity to connect with peers who can relate to their life experiences. These programs are also effective in being a platform for students to have an active voice in our school community and get a chance to participate in trips they might not be able to afford outside our program. Our sports programs not only give students the traditional high school experience, but they also allow for opportunities to develop key character traits such as teamwork, collaboration, communication, and sportsmanship. Similarly, involvement in student leadership groups, field trips, and other extra-curricular activities provide our subgroup students with an opportunity to connect with peers that can relate to their life experiences. These programs are effective in offering a platform for students to have an active voice in our school community. By the nature of our student demographic breakdowns, the majority of students who participate in these school programs fall within at least one of our student subgroups. OFY Victorville has sports programs that run year around. We offer a Pathways experiential trip once per month, and we have college tours and day field trips throughout the year. The VV charter had over 50% of CBED students participate in an extra-curricular activity or course designed to develop their social-emotional skills in the 2018-19 school year.

Events for student success such as senior signing nights and awards banquets were hosted. These events served as an opportunity to celebrate student successes. Graduation is especially important for our school community to offer incentives and celebrations along the way. As some of these events are specific to our student subgroups (i.e. EL reclassification ceremonies), others are open and available to all students. Celebrating our students' success is something we at Options for Youth hold dear to our hearts as most of the students that come to us are not your typical honor roll student. Typically, our subgroup of students that come to us are not accustomed to being recognized for their academic success. Historically they are accustomed to failing academically, but by developing their social-emotional skills and helping them to become well-rounded students many of them achieve academic success thus boosting their morale and eagerness to pursue their post-secondary options. Events for students have been effective in connecting students to our program and giving them a sense of belonging. These events were effective in maintaining a positive school climate and developing our students socially and emotionally. Senior Social is a social event where grads prepare for the ceremony: order cap and gown, take pictures, write thank you notes to their families, etc. Senior Breakfast is an event where grads can have a nice meal with their teachers and reflect on their progress and success at OFY. We had an EL Awards Night where we highlight outstanding achievement in our EL population. We also hold sports awards ceremonies to highlight athletes. Additionally, we offer two graduation ceremonies (one in the Fall and one in the Spring) so that we can celebrate all grads.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Budgeted amounts for the above actions and services were based on projected LCFF supplemental and concentration revenues for the 2018-2019 school year. In order to fully implement these services, additional funds outside of LCFF supplemental and concentration amounts were needed. Thus, what is reported in actual spending also includes portions of the general fund for the charter.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

No changes were made to this goal. Expected outcomes, metrics, and planned actions and services were unchanged throughout the 2018-2019 LCAP year. There are still 8 academic school weeks left in the 2018-19 school year and we anticipate meeting all goals as of June 30, 2019. Continuous monitoring of internal program and student success data throughout the year allowed for the successful implementation of this goal.

Goal 3

Students will receive support and instruction through individualized, rigorous curriculum and will be offered resources to positively affect their progression in core courses.

State and/or Local Priorities addressed by this goal:

State Priorities: 2, 4, 7, 8

Local Priorities: Not Applicable

Annual Measurable Outcomes

Expected	Actual
A. The charter will maintain its level of change or higher on Level 3 on the 2019 ELA and math SBAC scores.	Scores have not been released by the state as of June 2019. Once scores are made available updates will be made available, we anticipated this will be in Fall 2019. We anticipate that 2019 scores, which are not yet available, will show a “maintained” level

	<p>of students meeting or exceeding standards. The 2018 scores were:</p> <ul style="list-style-type: none"> • Math level of change for 2018: Declined 9.9 points • English Level of change for 2018: Declined 4 points
<p>B. Access to individualized, rigorous curriculum will be increased by adding or revising at least 3 core courses in the course catalog.</p>	<p>Access to individualized, rigorous curriculum was increased by adding and/or revising the following math and English courses in the course catalog (Appendix E)</p> <p>Core courses added or revised:</p> <ul style="list-style-type: none"> • English 9 (creation) • US Government (revision) • US History (creation) • Physical Science (revision)
<p>C. Teachers will be equipped to provide individualized, standards-aligned instruction through access to Professional Development Coaches.</p>	<p>Teachers were equipped to provide individualized, standards-aligned instruction through access to Professional Development Coaches.</p>
<p>D. Students will be offered additional specialized support and instruction to aid in their progression and completion of core course curriculum.</p>	<p>Students were offered additional specialized support and instruction to aid in their progression and completion core course curriculum.</p>
<p>E. Students will complete on average at least 4.64 Math credits during the school year.</p>	<p>On average, students completed 4.70 Math credits during the school year.</p>
<p>F. Students will complete on average at least 4.86 English credits during the school year.</p>	<p>On average, students completed 5.26 English credits during the school year.</p>
<p>G. Students will complete on average at least 4.90 Science credits during the school year.</p>	<p>On average, students completed 5.35 Science credits during the school year.</p>
<p>H. Students will complete on average at least 5.51 Social studies credits during the school year.</p>	<p>On average, students completed 6 Social Science credits during the school year.</p>

I. At least 51% of students who take at least two Renaissance STAR assessments in math and have a Student Growth Percentile (SGP) reported will earn a SGP of 40 or higher.	54.71% of students who took at least two Renaissance STAR assessments in math and have a Student Growth Percentile (SGP) reported earned a SGP of 40 or higher.
J. At least 52% of students who take at least two Renaissance STAR assessments in English and have a Student Growth Percentile (SGP) reported will earn a SGP of 40 or higher.	57.70% of students who took at least two Renaissance STAR assessments in English and have a Student Growth Percentile (SGP) reported earned a SGP of 40 or higher.
K. A baseline will be established for English Language Learners Lexile range advancements in literacy and language	9th grade EL students had an average Lexile increase of +16.7 over 3 testing periods. 10th grade EL students had an average Lexile increase of +86.7 over 3 testing periods.

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
Instructional program maintenance and development including but not limited to: <ul style="list-style-type: none"> Program design and implementation Retention, recruitment and maintenance of our instructional program including staff 	Instructional program maintenance and development including but not limited to: <ul style="list-style-type: none"> Program design and implementation Retention, recruitment and maintenance of our instructional program including staff 	\$1,189,458.75	\$2,492,145

Action 2

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Through the implementation of our actions/services listed for LCAP goal 3, the charter was able to meet its expected measurable outcomes through several different avenues which included but were not limited to:

- *Increased the number of Core Course units completed during the year*
- *Changed the sequencing of our Math Curriculum*

- *Implementation of Integrated Math Curriculum*
- *Training all SGI ELA staff on ERWC Curriculum*
- *Focused SBAC Prep based upon identified student need*
- *Utilizing Ren Star test to better assess student academic need*

Curriculum maintenance and development including but not limited to: Salaries, Contracts, Curriculum development and maintenance - this involves alignment to Common Core Standards and adjusting yearly based on curriculum need for our student Learning management system, Digital Platform migration and maintenance - this was the first school year in which we have operated using StudentTrac and throughout the school year, adjustments have been made such as a student progress report feature. This system has allowed staff and our school to track data more easily and to provide information in how are students are doing in their coursework in real time. We have also begun a pilot program with Edmentum in order to find an online curriculum option that would allow for students to learn in different modalities and take alternate courses.

Educational technology resources including but not limited to: Software, Online educational programs, Technology, Chromebooks, Data tracking software. Achieve 3000, Edmentum, RenStar, StudentTrac, and Tableau. Training has been provided to staff especially in relation to Tableau and RenStar.

Instructional program maintenance and development including but not limited to: Program design and implementation, Retention, Recruitment and maintenance of our instructional program including staff, recognizing innovative needs. One innovative need has been the introduction of Edmentum as our organization would like to provide an online curriculum option to students.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

All of our actions and services were principally directed toward low income, English learners and foster youth students and were offered school wide

Curriculum development and maintenance was effective as it offered modifications to our curriculum delivery platforms so that coursework could be accessed and completed in person, in workbooks, and digitally. While maintaining rigor and high academic standards, we have continued to work toward improving coursework so that it is easier to understand and complete with full mastery of skills and material as evidenced by our subgroup student progression outcomes for the 2018-19 school year being over 90%. We also worked to embed informal assessments and targeted practice and intervention into independent study curriculum so as to address individual student needs through the learning process, and in turn work toward closing the opportunity gap between student groups. Additionally, we worked on developing, revising and adopting curriculum offerings so that students have access to a variety of coursework and digital curriculum offerings to fully round-out their educational experience. Although these courses will be available to all students, as our program promotes a mainstreamed education with necessary support services along the way, these course additions, edits, revisions, and migrations were geared to student subgroup needs. With the migration to a new digital platform,

students that fall into one or more of our subgroups benefit the most from these digital offerings as they are designed with their needs in mind. Scaffolding, assessments, and animations make it easier for our subgroup of students to get through our curriculum with full mastery. We have made available fourteen digital core courses using Edmentum as well as eight digital elective courses. We also have released the technology literacy course, which is a digital, Google Suite-based course. Additionally, our Curriculum Department has also revised classes this year and solicited valuable feedback from instructional staff about which classes are in the most need of revision for the following year which has been effective in creating the best curriculum for our students.

Historically we have seen that our English learners, foster, and low income students have limited access to technology at home which results in a lack of coursework being done outside of our learning centers. **Educational technology resources** were effective by providing all educational materials, including technology and a list of locations with free WiFi access, we were able to ensure that all students had access to their coursework, including online materials and testing. This is especially important for our foster and low income student subgroups, as many of them do not have access to such technologies and resources outside of the learning center. By implementing the use of Google Suite for Education (i.e. Gmail, Drive, Classroom, etc.), we are ensuring that every student can develop 21st century learning and life skills. Much of our curriculum embeds the use of this software into the educational experience, which has proven to increase student familiarity and success with digital platforms for research, communication, collaboration, and state assessments. Improvements to our data tracking and analysis capabilities were effective in supporting data-informed practice in improving student outcomes. With the availability of Tableau® (Appendix A), staff was able to run regular reports toward tracking goal and metric progress. These reports were made available by student subgroup so that instructional staff could tailor their efforts and interventions toward specific student needs. For example, our EL support team was able to closely track and monitor students in their reclassification process so as to efficiently utilize time and resources toward promoting language proficiency.

Instructional program maintenance and development was effective and will to continue support the majority of our student population and those which fall into one of our student subgroups. It is important that we maintained our staffing and structure of our program as one that supports a general mainstream educational experience in an individualized way. Maintaining the integrity and intent of our program is of the highest priorities to us; therefore, we needed to ensure we are adequately staffed and that our facilities were in good repair and functional to meet the needs of our students. In order to establish a well-rounded instructional program, we needed to develop our program as our students' needs change and our staff student loads change; therefore, it was crucial we gave every student the best academic program possible by maintaining and developing our program as needed throughout the year. We want to make certain there are no obstacles in the way of our students and staff achieving their academic goals. One enhancement to our program was in the area of safety. Students and staff were given badges to wear when in the center which not only helped to give students a sense of connection to our school, but it also gave them a sense of safety as visitors are monitored upon arrival if they do not have badges and must sign in and wait to be seen. Security was also increased up to promote a sense of safety.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Budgeted amounts for the above actions and services were based on projected LCFF supplemental and concentration revenues for the 2018-2019 school year. In order to fully implement these services, additional funds outside of LCFF supplemental and concentration amounts were needed. Thus, what is reported in actual spending also includes portions of the general fund for the charter.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

No changes were made to this goal. Expected outcomes, metrics, and planned actions and services were unchanged throughout the 2018-2019 LCAP year. Continuous monitoring of internal program and student success data throughout the year allowed for the successful implementation of this goal.

Stakeholder Engagement

LCAP Year: **2018-2019**

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

Parent and student LCAP focus group meetings (Appendix E) were held within the charter in both the fall and in the spring. These meetings were organized in order to provide parents and students with more information about LCAP and out school-wide goals. Attendees were invited to provide additional specific feedback to the meeting provided in the meeting verbally as well as through an online survey. Meetings were available in both English and Spanish. Parent and student LCAP focus group meetings were held for the charter on the following dates:

- October 4, 2018 at the Victorville 3 learning center
- October 11, 2018 at the Victorville 1 learning center
- November 8, 2018 at the Victorville 4 learning center
- April 4, 2019 at the Victorville 3 learning center

Parent surveys were administered in English and Spanish online in both the fall and in the spring. Surveys were administered at the conclusion of each focus group meeting with provided computers, and links were sent home for those that could not attend meetings. Parents were invited to provide feedback around improving our programs and supports for students and general LCAP goal and metric development through questions surrounding the 8 state priority areas. The Comprehensive School Climate survey (Appendix A) was administered in the Spring particularly focusing on parent's sense of safety and connectedness to our school. Parent surveys were administered in the charter during the following windows:

- Fall surveys were open from September 2, 2018- November 21, 2018
- Spring surveys were open from February 4, 2019 - April 4, 2019
- Comprehensive School Climate Survey – April 1, 2019 – April 23, 2019

Student surveys were administered through our online assessment system in both the fall and in the spring. Surveys were administered during student appointment and testing times with provided computers. Students were invited to provide feedback around improving our programs and supports, particularly focusing on their sense of safety and connectedness to our school, as well as general LCAP goal and metric development through questions surrounding the 8 state priority areas. The Comprehensive School Climate survey (Appendix A) was administered in the Spring particularly focusing on student's sense of safety and connectedness to our school. Student surveys were administered in the charter during the following windows:

- Fall surveys were open from October 1, 2018 - October 31, 2018
- Spring surveys were open from March 11, 2019 – April 19, 2019
- Comprehensive School Climate Survey – April 1, 2019 – April 23, 2019

The Staff LCAP focus group was created with a representative mixture of staff throughout the Options for Youth network. This team was tasked with the responsibility of meeting twice throughout the school year in order to serve as a liaison for LCAP purposes on the learning center level. Each charter in OFY has a designed LCAP Point Person who helped drive our LCAP goals, promote parental involvement in our centers and updated staff on their progress toward achieving the charter's LCAP goals. Staff LCAP focus group meetings were held on the following dates:

- October 26, 2018
- November 30, 2019
- February 1, 2019
- March 22, 2019

Staff LCAP surveys were administered online in both the fall and in the spring. Surveys sought input through a variety of questions (including Likert scale ratings, rankings, and free response questions) regarding our LCAP goals along with areas for overall improvement and needed resources throughout the charter. The spring survey focused heavily on seeking input from all staff around the 8 state priorities and specific areas of need for our students, particularly within student subgroups, as we move into the next school year. Responses were carefully reviewed, analyzed, and discussed at length by all of leadership in order to inform the progression of our 2018-19 plans and goals as well as aid in the development of our 2019 -20 plans and goals. The Comprehensive School Climate survey (Appendix A) was administered in the Spring particularly focusing on staff's sense of safety and connectedness to our school. Staff LCAP surveys were administered in the charter during the following windows:

- Fall surveys were open from October 2, 2017 - October 31, 2017.
- Spring surveys were open from February 26, 2018 - March 26, 2018.
- Comprehensive School Climate Survey – April 1, 2019 – April 23, 2019

Corporate-level, School Leadership & center-level LCAP update meetings were held to promote inter-departmental collaboration in monitoring and working toward LCAP goals as well as developing goals and metrics for the 2018-19 school year. Meetings touched on a variety of topics related to LCAP goal implementation, most effectively creating a space for communication between support departments and implementation teams. Goal metrics and progress toward budget spending were reviewed at each meeting. Strategies for maintaining steady progress were discussed, identified, and implemented as a result of these meetings. Corporate-level, School Leadership & center-level LCAP update meetings were held on the following dates:

- July 2018- June 2019 - Weekly Monday Zoom Meeting (Virtual)
- August 17, 2018 – Victorville 1 learning center - Staff in-service
- October 10, 2018 - School Leadership & Corporate
- February 13, 2019 - School Leadership & Corporate
- March 1, 219 - School Leadership & Corporate
- April 11 & 12, 2019 - School Leadership & Corporate

- May 19, 2019 – Board Meeting (LCAP & CSI Draft Review)
- June 3, 2019 – Board Meeting (LCAP & CSI Approval Vote)

On May 3, 2019, Waneka Cabrera our Director of Special Education, Jennifer Velazquez our LCAP Supervisor and Victor Valley's SELPA Director Jenae Holtz had a virtual meeting to connect on LCAP and the SELPA working together in the upcoming year. During this meeting the group discussed the charters LCAP goals for 2019-20, CSI, and Professional Development opportunities offered by Victor Valley to help support Special Education student learning and engagement.

The Board of Directors was updated on progress toward goal metrics, received information about the proposed changes, and gave feedback to school leadership prior to voting on the adoption of the LCAP & CSI plan on May 16, 2019. The board voted to adopt the 2019 -2020 LCAP & our CSI plan at the regularly scheduled meeting on June 3, 2019.

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

Through the various stakeholder consultation processes described above, the development of the 2018-2019 Annual Update and the goals, actions, services, and expenditures for the 2019-2020 LCAP year were impacted.

Annual Update

The Annual Update was mostly impacted by stakeholder engagement efforts in the fall of 2018. Parent and student surveys and focus group meetings from the fall window provided insight into an assessment of parent engagement and change in LCAP knowledge and understanding. This allowed for course-correction mid-way through the school year so that the charter could improve parent engagement efforts and communicate LCAP-related information in a clearer and accessible format. Parent and student input from surveys also impacted general organizational knowledge and response to parent and student satisfaction with the program, including questions requesting ratings on the school's success in addressing the state priority areas, most specifically regarding school climate.

The fall 2018 staff survey and focus group meetings also impacted development of the Annual Update. Similar to parents and students, the survey provided insight into an assessment of staff understanding of LCAP and its related school-wide goals, actions, and services. Again, this allowed for an improvement of communication mid-way through the school year so as to ensure that all staff were fully engaged in the process. Overall, staff engagement efforts throughout the school year aimed to aid in the improvement of organizational communication to help improve staff retention, engagement, and performance, as indicated in 2018-2019 LCAP goals and related services.

Corporate-level, School Leadership & center-level LCAP meetings throughout the year supported efforts in monitoring metrics and altering actions and services as necessary in order to achieve annual goals as reported in the Annual Update.

Goals

2019-2020 LCAP goal development was heavily guided by the input of stakeholders in our spring 2019 engagement efforts. Parent, student, and staff involvement supported the continue need to focus on all core courses as a focus area throughout the LCAP. Through the spring 2019 survey, students expressed great interest in continuing efforts toward supporting and promoting credit completion, most specifically in relation to core course credits. Staff input from surveys and focus group meetings also supported the need to continue many of the efforts of our 2018-2019 goals and metrics, including the selection of targeted improvement metrics and the addition of adding to our parental involvement offerings in Goal 2. Parent, student, and staff participation in the spring 2019 Comprehensive School Climate Survey helped toward improvement in school climate measures of perceived school safety and connectedness. Finally, school & corporate leadership meetings toward the end of the 2018-2019 school year supported efforts in assessing baseline data and developing goals and metrics to support improved student outcomes in the 2019-2020 year that better align to the California School Dashboard and performance indicators.

Actions, Services, & Expenditures

2019-2020 LCAP action, service, and expenditure selection was heavily guided by the input of stakeholders in our spring 2019 engagement efforts. All stakeholder groups provided input to support the improvement and addition of the digital curriculum platform as well as the continued support and resources targeted toward core course coursework support, as outlined in Goal 3. Students expressed the continued and increased need for transportation assistance, which is evident in planned “Materials to improve student achievement and engagement” expenditures. Staff input in the spring 2019 survey most notably contributed to plans for improvement in the staff experience in order to adequately serve our student population and improve both instructional staff and student retention, as evidenced by the “Maintenance, retention and recruitment of instructional staff & Instructional program maintenance and development” expenditures. Staff identified the following areas as priority focus points for improving overall student experience in the upcoming school year: providing supports to improve attendance and engagement in school and increasing course offerings and support in core courses. Staff also identified the following areas as priority focus points for better supporting our student subgroups in the upcoming school year: the addition and maintenance of specialized staff, professional development coaching for instructional staff, increasing social-emotional development offerings, and modifying and/or scaffolding curriculum for specialized needs. All of these focus points are now incorporated into the actions, services, and expenditures for the 2018-2019 LCAP year. Finally, school & corporate leadership meetings toward the end of the 2018-2019 school year supported efforts in assessing implementation effectiveness of actions and services as well as plans to continue and enhance services in order to support improved student outcomes in the 2019-2020 year.

Goals, Actions, & Services

Strategic Planning Details and Accountability

Complete a copy of the following table for each of the LEA's goals. Duplicate the table as needed.

(Select from New Goal, Modified Goal, or Unchanged Goal)

Modified Goal

Goal 1

Credit completion towards graduation is accomplished through an overall reduction in absenteeism for all students.

State and/or Local Priorities addressed by this goal:

State Priorities: 2, 4, 5, 6, 8

Local Priorities: Not Applicable

Identified Need:

As our school serves an over-age, under-credit student population, it is important that we focus on reducing absenteeism in an effort to help students recover credits. By offering additional time and resources (including access to consistent teaching staff), we are able to increase student progression toward graduation. As student/teacher relationships are vital to student success in our program, it is incredibly important that we recruit and hire the best instructional staff, provide them with the training and support necessary to continue to improve, and ensure a positive school climate to assist in the retention of our instructional team.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
A. Attendance	Not Applicable	Not Applicable	Not Applicable	On average student digital attendance will be

				maintained at or above 90% overall.
B. Foster Youth – Resources & Planning	Not Applicable	Not Applicable	Not Applicable	80% foster youth students who have been enrolled for at least 30 days, will meet with their Student Advisor once a semester to ensure they are receiving resources needed inside and outside the center.
C. EL Reclassification	In 2016-2017, of English learners eligible for reclassification, 25.49% were reclassified.	In 2017-18, of English learners eligible for reclassification, 27.45% were reclassified.	In 2018-19, of English learners eligible for reclassification, 52.17% were reclassified.	The charter aims to maintain current reclassification percentages at or above 20% .
D. EL Support	In 2016-2017, English learners were offered additional specialized instruction to move toward reclassification.	In 2017-18, English learners were offered additional and improved specialized instruction in ELD and Common Core State Standards in order to move toward reclassification.	In 2018-19, English learners will be offered additional designated and integrated specialized instruction and appointment times in ELD and Common Core State Standards in order to move toward reclassification.	English learners will be offered additional designated and integrated specialized instruction and appointment times in ELD and Common Core State Standards in order to move toward reclassification.
E. Drop-out Rates	In 2016-2017, the middle school drop-out rate was 4.9% and the high school drop-out rate was 7.57%.	In 2017-18, the middle school drop-out rate was 2.36% and the high school drop-out rate was more 2.53%. We will be modifying our calculation of drop-rates for the 2018-19 school year to better	The middle school drop-out rate was 1.82%. As of May 9,2019, the high school drop-out rate was 5.08%. There are still 8 academic school weeks left in the 2018-19	The Charter's drop-out rates will be maintained or below 5% for High School and Middle School.

		reflect our leave code process.	school year and we anticipate meeting this goal as of June 30, 2019.	
F. Suspension Rates	In 2017-18, the charter's suspension rate was 0.00%.	In 2017-18, the charter's suspension rate was 0.00%.	In 2018-19, the charter's suspension rate was 0.00%.	The charter aims to maintain its suspension rates at or below 1.5%.
G. ELD Curriculum Pilot	Not Applicable	Not Applicable	Not Applicable	The charter will pilot a new designated ELD curriculum, iLit by Pearson, tailored to improving EL student learning.
H. EL Intervention	Not Applicable	Not Applicable	Not Applicable	EL students will be offered interventions such as Achieve 3000 to help aid their mastery of course materials.
I. Credit Attainment	For all CBEDS students in 2016-2017, student progression averaged 86.55% overall.	For all CBEDS students in 2017-18, student progression averaged 89.42% overall.	In 2018-19, For all CBEDS students, student progression averaged 90.01% overall.	For all students, student progression will be maintained at or exceed 84% overall.
J. Lesson Plans & Implementation of Common Core	Not Applicable	Not Applicable	Not Applicable	90% of teachers in their roles 90 days or longer will create a strategic and goal setting plan on common core state standards and performance standards.

Modified Goal

Goal 2

Students will receive support and instruction focused on social-emotional development in order to increase graduation rates and better prepare students for their post-secondary pathways

State and/or Local Priorities addressed by this goal:

State Priorities: 3, 5, 6

Local Priorities: Not Applicable

Identified Need:

As our school serves over-age, under-credit student populations who have often had negative school experiences in the past, it is important for us to pair our rigorous courses with social-emotional guidance and development. By developing well-rounded citizens, our students graduate from high school prepared to positively contribute to society

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
A. Social-Emotional Development	In 2016-2017, 41.25% of CBEDS students participated in an extra-curricular activity or completed a course designed to develop their social-emotional skills.	In 2017-18, 37.56% of CBEDS students participated in an extracurricular activity or completed a course designed to develop their social-emotional skills.	In 2018-19, 52.86% of CBEDS students participated in an extracurricular activity or completed a course designed to develop their social-emotional skills.	40% of students enrolled 30 days or longer will participate in extracurricular activities or complete a course designed to develop their social-emotional skills.
B. Graduation Rate – ESSA Requirements	In 2017-18, the California School Dashboard reported our Charter as having a 1-year cohort graduation rate of 60.90%.	In 2017-18, the California School Dashboard reported our Charter as having a 1-year cohort graduation rate of 60.90%.	In 2018-19, the California School Dashboard reported our Charter as having a 1-year cohort graduation 72.40%.	The charter aims to increase its graduation rate average of 66.65%, to meet ESSA requirements of having a graduation rate at or above 67%
C. Senior Event	In 2016-2017, the charter held 1 senior signing event.	In 2017-18, The charter held 1 senior signing event.	In 2018-19, the charter held 1 senior signing event.	The charter will host at least one senior specific event.
D. Stakeholder Engagement/Parental Involvement	In 2016-17, The charter held more than 2 family engagement nights	In 2017-18, The charter held more than 2 family engagement nights	In 2018-19, The charter held more than 2 family engagement nights	The charter will host at least 5 family engagement events
E. Engineering and Design Challenge	Not Applicable	Not Applicable	Not Applicable	The charter will host an Engineering and Design Challenge.
F. Exploring post-secondary opportunities	Not Applicable	Not Applicable	Not Applicable	Field trips exploring post-secondary

				opportunities will be offered.
G. College and Career Fair.	Not Applicable	Not Applicable	Not Applicable	The charter will host a College and Career Fair.

Modified Goal

Goal 3

Students will receive support and instruction through individualized, rigorous curriculum and will be offered resources to positively affect their progression in core courses.

State and/or Local Priorities addressed by this goal:

State Priorities: 2, 4, 7, 8

Local Priorities: Not Applicable

Identified Need:

After reviewing student course completion data, internal benchmark assessment scores, and stakeholder input, it was identified that there is a need to focus on instruction and student support in all core courses in an effort to increase student achievement. With the transition to Common Core, students have been struggling with content and increased rigor delivered through independent study curriculum and have expressed the need for an increase in academic supports. Additionally, as student/teacher relationships are vital to student success in our program, it is incredibly important that we recruit and hire the best instructional staff, provide them with the

training and support necessary to continue to improve, and ensure a positive school climate to assist in the retention of our instructional team.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
A. SBAC	The average distance of student scores from Level 3 on the 2016 SBAC was at the “Maintained” level of change in ELA and at the “Declined” level of change in math, as reported by the State Dashboard.	The average distance of student scores from Level 3 on the 2018 ELA and math SBAC will be at the “Maintained” level of change or higher.	In 2018, The average distance of student scores from Level 3 on the 2019 ELA and math SBAC was at the “Declined” level of change, as reported by the State Dashboard.	The average distance of student scores from "standard met" on the 2020 ELA and math SBAC will be at the “Maintained” level of change or increased.
B. Core Course Completion Support	In 2017-18, students were offered additional specialized support and instruction to aid in their progression and completion of math and English curriculum.	In 2017-18, students were offered additional specialized support and instruction to aid in their progression and completion of math and English curriculum.	In 2018-19, students were offered additional specialized support and instruction to aid in their progression and completion of core course curriculum.	Students will be offered additional specialized support and instruction to aid in their progression and completion of core courses.
C. Teacher coaching & development	In 2016-2017, teachers were equipped to provide individualized instruction through access to content-specific Instructional Coaches	In 2017-18, teachers were equipped to provide individualized instruction through access to content-specific Instructional Coaches.	Teachers were equipped to provide individualized, standards-aligned instruction by having access to Professional Development Coaches.	Teachers will be equipped to provide individualized, standards-aligned instruction through access to Professional Development opportunities.

D. Core course credit completion	In 2017-18, students on average completed 5.51 Social Studies credits, 4.96 Science credits, 4.86 English credits and 4.64 Math credits during the school year.	In 2017-18, students on average completed 5.51 Social Studies credits, 4.96 Science credits, 4.86 English credits and 4.64 Math credits during the school year.	In 2018-19, students on average completed 6 Social Studies credits, 5.35 Science credits, 5.26 English credits and 4.70 Math credits during the school year.	Students will complete on average at least 5 Social Studies and Science credits, and 4 Math and English credits in the school year.
E. Renaissance Star –Scaled scores – English & Math	Not Applicable	Not Applicable	Not Applicable	The charter will track and analyze Renaissance Star Scaled Scores and a baseline will be established.
F. Renaissance Star- EL Lexile	In 2018-19, 9th grade EL students had an average Lexile increase of +16.7 over 3 testing periods. 10th grade EL students had an average Lexile increase of +86.7 over 3 testing periods.	Not Applicable	In 2018-19, 9th grade EL students had an average Lexile increase of +16.7 over 3 testing periods. 10th grade EL students had an average Lexile increase of +86.7 over 3 testing periods.	Charter aims to increase overall Lexile growth for English learners through specialized instruction and interventions.
G. Course Access	In 2016-2017, 11 math courses were either added or revised in the course catalog.	In 2017-18, access to individualized, rigorous curriculum was increased by adding and/or revising the following math and English courses in the course catalog: Math courses added:	In 2018-19, Access to individualized, rigorous curriculum was increased by adding and/or revising the following core courses to the course catalog (Appendix C). Core courses added or revised:	Access to individualized, rigorous curriculum will be increased by contracting out to develop, revise, adopt, adapt and/or create curriculum.

		Integrated Math I (Creation) Integrated Math II (Creation) Geometry A (DC) CP (Creation) English Courses revised: English 8 (Revision) English 10 (Revision) English 11 (Revision)	<ul style="list-style-type: none"> English 9 (creation) US Government (revision) US History (creation) Physical Science (revision)

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: **2019-20**

Estimated Supplemental and
Concentration Grant Funds

Percentage to Increase or Improve Services

\$ 2,938,490.00

29.36%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

In 2019-20, LCFF concentration and supplemental funds will be proportionally allocated LEA-wide in the Options for Youth Victorville in order to increase and improve services for our low income pupils, foster youth, and English learner populations by 29.36% as compared to services provided for all students. In the 2018-19 school year the charter served an unduplicated pupil percentage of 66%. Below is a description of how services will be principally directed to and effective in meeting the charter's goals for unduplicated pupils in the state priority areas.

Maintenance, retention and recruitment of instructional staff

By nature, and design of our program, all students participate and complete the same curriculum and educational offerings. Historically, we have seen that those pupils falling within our student subgroups require more specialized services and attention in order to be successful in this mainstream environment. It is vital that they have access to specialized academic support staff (i.e. tutors, Math Intervention Specialist, EL Specialists and Coaches, Intervention Specialists, Student Advisors, etc.) in order to support their individualized needs. Many of these instructional support staff positions devote the majority of their time to working with students in each of the subgroups, as they make up the majority of our overall student population. This is not only the case for support staff, but also for our administration and regular independent study and small group instruction instructional staff. These positions also devote more of their time to working with our student subgroups in order to support their success in the mainstream experience. Historically, when one of our teachers leaves our program, the students they serve show a significant decline in progression and many students end up leaving our program shortly after their teacher. As many of our student subgroups come from a background rooted in trauma, they tend to lack positive trusting relationships with adults. When we are able to retain teachers that students have built a trusting and positive relationship with, they stay with our program longer and complete coursework at a more efficient pace. This in turn shows impact through increased credit completion, graduation rates, and reclassification percentages for English learners, Renaissance Star SGPs, and standardized test scores. Therefore, it is incredibly important that we recruit and hire the best instructional staff, provide them with the coaching and support necessary to continue to evolve, and ensure a positive school climate to assist in the retention of our instructional team. In order to continue supporting the majority of our student population, those which

fall into one of our student subgroups, it is important that we maintain the staffing and structure of our program as one that supports a general mainstream educational experience in an individualized way. Maintaining the integrity and intent of our program is of the highest priorities to us, therefore we need to ensure we are adequately staffed, our facilities are in good repair and functional to meet the needs of our students. To establish a well-rounded instructional program, we need to develop our program as our students' needs change and our staff student loads change, therefore it is crucial we are giving every student the best academic program possible by maintaining and developing our program as needed. We want to make certain there are no obstacles in the way of our students and staff achieving their academic goals. As the majority of these instructional positions' time and development are tailored to supporting our student subgroups, we are inherently allocating resources proportionally in accordance with the 29.36% requirement as compared to services provided for all students.

Professional Development opportunities

To establish a well-rounded educational environment, we provide access to professional development opportunities to ensure our staff is equipped with the skills necessary to provide individualized, standards-aligned instruction to our students. Professional development offerings will be crucial in our students' academic success therefore offerings will be made available to all instructional staff. Through these offerings our instructional staff will gain the tools and knowledge to prepare our students and aid their success in our program, on standardized benchmark testing, as well as mastering their completion of core courses. When our instructional staff is coached and given the tools and knowledge to improve their teaching skills in order to provide individualized, standards-aligned instruction, students have a higher likelihood of achieving their monthly academic requirements (i.e. progression). Our PD coaches are dedicated to continuous improvement of our program and training our newly hired staff and much of their time is dedicated to prioritizing, coordinating and monitoring our instructional staff student outcomes monthly. Coaching increases educator effectiveness which results in students' success. In order to continue supporting the majority of our student population, those which fall into one of our student subgroups, it is important that we maintain and/or develop the PD coaches as our program is one that supports a general mainstream educational experience in an individualized way. OFY Victorville will begin to implement the established CSI plan that imbeds a focus on the goal of increasing student achievement by strengthening teacher understanding and use of data. Data workshops and curriculum deep dives will be offered. An additional Assistant Principal of Operations position will be added to support full implementation of all CSI plan goals and metrics. PD opportunities focused on data analysis will be offered for all teachers. PLCs targeting RenStar data will be provided as well. Professional development will also be provided to assist teachers in tracking and monitoring practices, EL strategies, strategic educational planning for seniors, and conducting effective Achievement chats with families. Incorporating the CSI plan of tracking, monitoring, and providing intensive individualized student support as recommended by the Clearinghouse evidence based intervention study, PD opportunities will give teachers the tools and support in committing to this plan with fidelity and confidence and aid in decreasing the dropout rates and increasing the graduation rates. As the majority of these PD coaching positions' time and development are tailored to supporting our instructional staff who tend to have a heavy load of students in one or more subgroups, we are inherently allocating resources proportionally in accordance with the 29.36% requirement as compared to services provided for all students.

Events for student success

Events for students such as Senior Nights, Senior Awards/Signing, awards banquets and EL reclassification celebrations (Appendix A) will take place as applicable. These events serve as an opportunity for celebration of student successes, which is especially important to our student subgroups. Often facing many hardships and obstacles in their academic journey to graduation, it is

especially important for our school community to offer incentives and celebrations along the way. These events also increase student and family engagement, build a strong sense of identity and personalized communities, and foster supportive relationships with all stakeholders as recommended in the evidence based intervention study and outlined in our CSI plan. We aim to have these events promote and support our grad rates and college and career readiness. As some of these events are specific to our student subgroups (i.e. EL reclassification ceremonies), others are open and available to all students. In order to align with the inclusive nature of our program, it is important that these offerings be available to all students, however it is our student subgroups that make up the majority of those that participate in these events. As this is the case, resources will be allocated proportionally to our student subgroups in accordance with the 29.36% requirement as compared to services provided to all students.

School programs

School programs such as experiential learning trips and camps, sports, groups, and field trips provide students with a unique learning experience outside of the classroom in which they are able to apply academic and social-emotional skills toward real-life situations. Students within one or more of the subgroup categories would often not otherwise be able to afford an experiential learning trip away from home. However, the experience and curriculum offered on these experiential learning trips have proven to grow students socially, emotionally, and academically as well as promote a reduction in absenteeism. We have seen students re-engage in our program significantly after returning from these trips, which impacts their work product and academic performance in highly positive ways. This is especially the case for our student subgroups, as these programs offer them an opportunity to find connection and belonging within our school. Based on the evidence based intervention recommendations cited in US Department of Education, Preventing Dropout in Secondary Schools as approved and published by What Works ClearingHouse, <https://ies.ed.gov/ncee/wwc/practiceguide/24> and additional studies mentioned above, engaging students to connect schoolwork and college/career success helps to keep students in school and help improve dropout rates. These programs will include field trips and community service oriented opportunities, Crew, various College Tours and Service Learning Trips, increased concurrent enrollment opportunities and internships, CTE classes, and College Career Fairs for students. Increasing student and family engagement is also mentioned as a recommendation in the Clearinghouse report. OFY Victorville will include Student Council events, FAFSA Nights for parents and students, and 2 Parent Workshop events for families as well. Focusing on the Clearinghouse intervention recommendations to increase graduation rates will be monitored for effectiveness and success periodically through the year with data collection and analysis.

Our sports programs not only give students the traditional high school experience, but they also allow for opportunities to develop key character traits such as teamwork, collaboration, communication, and sportsmanship. Similarly, involvement in student leadership groups, field trips, and other extra-curricular activities provide our subgroup students with an opportunity to connect with peers that can relate to their life experiences. These programs also offer a platform for students to have an active voice in our school community. By nature of our student demographic breakdowns, the majority of those that participate in these school programs fall within at least one of our student subgroups. Thus, resources for these programs will be allocated proportionally to our student subgroups in accordance with the 29.36% requirement as compared to services provided to all students.

Student academic resources & Educational technology resources

By providing students with access to academic resources such as textbooks, workbooks, other course materials, technology, and educational software, we ensure that there are no obstacles inhibiting full engagement in coursework. This is especially important for our foster, homeless, and low income student subgroups, as many of them do not have access to such technologies and

resources outside of the learning center. In order for students in our subgroups to access intervention support services and resources, they also need access to these materials, thus supporting their overall academic success in the program and beyond. Since our curriculum and coursework expectations are the same for all students, regardless of their ability level or subgroup identification, it is necessary for all students to have access to basic resources in order to complete coursework and assessments. We will continue to work toward identifying and providing for individual student resource needs in an effort to supply materials as necessary so as to ensure that our subgroups of students can actively engage in their coursework and work toward closing the opportunity gap. By nature of our student demographic breakdowns, the majority of those that participate in our program and benefit from receiving these resources fall within at least one of our student subgroups. Thus, student resources will be allocated proportionately to our student subgroups in accordance with the 29.36% requirement as compared to services provided to all students.

Materials to improve student achievement and engagement

By providing students with basic resources such as healthy snacks that align with our Wellness Program, school spirit wear, and transportation assistance to and from school, we ensure that students are able to be fully present and engaged while in our learning centers. This is especially important for our subgroup students, particularly our low-income and foster youth populations, because they often go without these amenities. When students go without food and are hungry, they are often distracted and not fully present and participating in their coursework. By having healthy food options available that align with our Wellness Program, we not only quickly re-engage them in their learning but also prevent them from leaving the center during work times in order to get food. We will also continue to use this opportunity to teach students about making healthy nutritional choices and how making those choices impact their overall wellbeing. Students who miss their appointment times often cite a lack of transportation as the reason for being unable to attend. In order to work toward reducing absenteeism, as Goal 1 states, we assist students with public transportation. Again, it is often our subgroup students and their families that do not have the means to provide this for themselves. One of our highest priorities is to ensure that all students feel welcomed and connected to our school community. We have seen that students who are actively engaged in our program outperform their peers in a variety of ways. One way in which we promote positive school climate and feelings of belonging within our student population is by providing school spirit wear. Students who fall within one or more of our subgroups would not otherwise be able to purchase these items for themselves and may feel excluded from fully participating in the school experience. By making school spirit wear available to all students, we ensure that those feelings of belonging and connection are accessible to everyone. By nature of our student demographic breakdowns, the majority of those that benefit from these offerings fall within at least one of our student subgroups. Thus, resources will be allocated proportionally to our student subgroups in accordance with the 29.36% requirement as compared to services provided to all students.

Curriculum development and maintenance

Our curriculum development efforts in the coming school year will be focused on improving accessibility, scaffolding of course instruction and migrating over to a digital platform. This will be done through modifications to curriculum delivery platforms so that coursework can be accessed and completed in person, in workbooks, and digitally. This will be done through modifications to curriculum delivery platforms so that coursework can be accessed and completed in person, in workbooks, and digitally. Additionally, we will continue to develop new curriculum offerings so that students have access to a variety of coursework and digital curriculum offerings to fully round-out their educational experience. Specifically, in alignment with our CSI goal indicator of addressing Math SBAC performance, an investment in Accelerated Math will be made. This course is recognized as an Evidenced Based Intervention, connected to Renaissance STAR and based on recognized

research; <https://doc.renlearn.com/KMNet/R61325.pdf>. The course is individualized and based off of an initial student assessment and then tailored to the individual student learning needs.

We have received feedback through stakeholder engagement efforts that some of our current curriculum is rather lengthy and confusing for students. This especially impacts our student subgroups, as they tend to struggle the most with independently getting through the course materials due to ability level and language barriers. While maintaining rigor and high academic standards, we will continue to work toward improving coursework so that it is easier to understand and targets scaffolded objectives that lead a student to mastery. We will also work to embed informal assessments and targeted practice and intervention into independent study curriculum so as to address individual student needs through the learning process, and in turn work toward closing the opportunity gap between student groups. Additionally, we will continue to develop new curriculum offerings so that students have access to a variety of coursework and digital curriculum offerings to fully round-out their educational experience. Although these courses will be available to all students, as our program promotes a mainstreamed education with necessary support services along the way, these course additions, edits, revisions and migrations will be tailored to student subgroup needs. With the migration to our new digital platform students that fall into one or more of our subgroups will benefit the most from these digital offerings as they are designed with their needs in mind. Scaffolding, assessments and animations will make it easier for our subgroup of students to get through our curriculum and with a deeper understanding and engagement with their expected learning outcomes. As the majority of our student population fall within one or more of our student subgroups, the majority of funds allocated to these efforts will be done so proportionately to our student subgroups in accordance with the 29.36% requirement as compared to services provided to all students.

Stakeholder engagement

Through stakeholder feedback in the 2017-18 school year it was clear that stakeholder engagement was a high priority amongst parents, students and staff. Following the evidence based intervention recommendations, increased engagement is embedded in the CSI plan to address OFY Victorville and needs and assist with building a strong sense of identity and personalized communities. Stakeholder engagement events such as open house, focus group meetings, community partnership events, and resource and career fairs will provide a time in which parents and students will be able to interact with our school administrative and instructional staff outside of appointment times. Stakeholder engagement events will offer an opportunity for parents to discuss their student's academic progress in light of their post-secondary goals. This will also be a time in which all stakeholders can come together and agree upon interventions, additional support resources, and other individualized student needs in order to ensure success. Many times, these conversations are tailored to identifying and fulfilling the needs of our student subgroups on an individualized basis. These events will also provide information and resources specific to student subgroup needs. For example, many of the efforts in these events will be geared toward connecting students and families with low income governmental support programs, foster youth services, homeless services, and other general community resources in the area (i.e. public libraries, transportation services, childcare services, etc.). Focus group meetings will be held to support our LCAP process and will be utilized to both educate students and parents as well as seek input toward program improvement, especially for our student subgroups. These events will still be open to all students, as there are aspects of them that would benefit any type of student in our program, but the majority of programming within these events will be tailored to the needs of our student subgroups. These events make it possible for parents to be an active partner in their students' academic success and post-secondary pathways, and to build a foundation of trust and respect between their student and our instructional staff. Therefore, by nature of these offerings being mostly in support of student subgroup needs, this

spending does allocate resources proportionally to our student subgroups in accordance with the 29.36% requirement as compared to services provided for all students.

Appendix A: Definitions of Terms & Metrics

Term/Metric	Definition
CBEDS	California Basic Educational Data System – a system for collecting data about students and schools in California that captures information once per year on the first Wednesday in October. As our student population is often fluctuating, we have found that this snapshot of students closely captures our most unchanging student group for the school year.
Comprehensive School Climate Inventory (CSCI)	Developed and administered by the National School Climate Center, the CSCI is a nationally-recognized and empirically validated school climate survey that provides an in-depth profile of a school community's particular strengths and needs. The CSCI measures shared perceptions of the school community and reveals how the populations whose perceptions were measured (students, school personnel, and parents) feel about the school environment. This is done through the measurement of 13 dimensions of school climate clustered into the following categories: safety, teaching and learning, interpersonal relationships, institutional environment, social media, and leadership.
Drop-out rate	Middle school and high school drop-out rates as reported are calculated to determine the percentage of the student population that leaves our program and does not enroll in another school program, or essentially drops out of school completely. This calculation identifies the percentage of all students that have a dropout leave code as their last leave code of the school year.
EL Reclassification Celebration	The EL Reclassification Celebration is an event hosted to recognize and celebrate students who have been designated as Reclassified Fluent English Proficient. Celebrated with parents, other students, and staff, each student is recognized for their hard work and accomplishments in achieving English fluency.
Experiential learning camps	Experiential learning opportunities are offered to all students free of charge. These include but are not limited to trips to Cuba, Italy, China, and Rocky Mountain Pathways Ranch in Colorado, Blackbird Farm in Northern California, CTE camps, and various college tours across the country. Trips include social-emotional curriculum and elective credit opportunities through various activities, reflections, discussions, and projects.
Individualized Learning Plan (ILP)	The ILP is documentation of a student coaching conversation that outlines the student's high school and post-secondary goals and needs in order to make regular progress toward those goals. Additionally, it aids in providing students with a connection to academic, program, and extra-curricular supports and resources in order to graduate from high school prepared for success in their chosen post-secondary pathway. Please see Appendix D for further detail.
Senior Signing event	Senior Signing night is an event hosted to recognize and celebrate students who have been accepted to and are attending college after graduation. Celebrated with parents, other students, and staff, each student proudly announces and accepts their college for fall enrollment. Also includes any and all senior events hosted by the charter to recognize our senior's accomplishments and celebrations of earning their high school diploma.
Student Growth Percentile (SGP)	SGP is a measurement of student growth through the use of Renaissance Learning's STAR benchmark assessment system. SGP compares a student's growth between two assessments to that of his or her academic peers (students at a similar achievement level as well as the same grade level) nationwide. This score provides a fair representation of how well a student is growing with consideration of expected growth rates for that student's grade and ability level compared to millions of students nationwide.
Student Progression	Student Progression is a measure of independent study student progress in both work product and attendance. It is represented as a percentage of students making satisfactory progress in unit completion on a monthly basis.

<p>Comprehensive Support and Improvement (CSI)</p>	<p>The Every Student Succeeds Act (ESSA) requires state educational agencies to determine school eligibility for comprehensive support and improvement (CSI). Local educational agencies (LEAs) with schools that meet the criteria for CSI must partner with stakeholders to locally develop and implement a plan to improve student outcomes. (Refer to Appendix B for plan details)</p> <p>California will use the California School Dashboard (Dashboard) to determine school eligibility for CSI. School eligibility is based on the following two categories of schools:</p> <ol style="list-style-type: none"> 1. High schools with a graduation rate less than 67 percent averaged over two years <ul style="list-style-type: none"> ○ All high schools, including Title I, non-Title I, traditional, and Dashboard Alternative School Status are eligible. 2. Not less than the lowest-performing five percent of Title I schools <ul style="list-style-type: none"> ○ Schools with all red indicators ○ Schools with all red but one indicator of another color ○ Schools with five or more indicators where the majority are red ○ Schools with all red and orange indicators
<p>Tableau®</p>	<p>Tableau® is a data visualization platform that organizes data into interpretable and usable graphs, charts, and reports.</p>

Appendix B: Comprehensive Support and Improvement (CSI) Plan

School Year: 2019-2020

Comprehensive School Improvement Plan

School Name	County-District-School (CDS) Code	Local Board Approval Date
Options for Youth-Victor Valley	36 67934 3630670	[Add Local Board Approval date here]

Part 1: LCAP Prompts:

Schools Identified:

Identify the schools within the LEA that have been identified for CSI:

Options for Youth-Victorville

Support for Identified Schools:

Describe how the LEA supported the identified schools in developing CSI plans that included a school level needs assessment, evidence based interventions and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

LEA supported identified schools in developing CSI plans by using the CA Dashboard results and the WASC Accreditation Self-Study findings and the Visiting Team schoolwide growth areas for continuous improvement recommendations as the school-level needs assessment. A CSI plan was developed using this data and subsequent analysis, including the identification of evidence-based interventions and resources identified for implementation. We are selected Achieve 3000 and Accelerated Math because we were already utilizing these two interventions with our EL students. Based on the academic success of the EL students we have decided to implement these programs to support all of our struggling students. We identified two resource inequities in our program. We identified a resource inequity in how we implemented these two intervention programs in the current school year. We are allocating more resources to support the school wide implementation and the staff trainings required for these two programs for all students in academic need.

Monitoring and Evaluating Effectiveness:

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

LEA will monitor the implementation and effectiveness of the CSI plan through identified quarterly monitoring cycles and provide an annual analysis of implementation progress and impact on student learning. The LEA will work with staff to coordinate data reflection and reporting on progress to support implementation progress and provide feedback of impact on student outcomes. Students will be identified by their performance on RenSTAR testing. This test is taken by students three times a year. Students that score at a level 1 will be given additional support with Achieve 3000 and/or Accelerated Math. The Student Intervention Team will monitor the academic progress of students on a monthly basis. This will be accomplished by measuring student unit

completion. The Student Intervention Team will also Monitor student academic growth by analyzing their score on the next administration of the RenSTAR test. This will determine if the student needs continued specific academic support with Achieve 300 and/or Accelerated Math. The overall success of this programs will be measured by growth in our grad rate, English proficiency, and Math proficiency on the State Dashboard.

Part Two: Full plan and description of CSI Process

Purpose and Description

Briefly describe the purpose of this plan for Comprehensive Support and Improvement

Options for Youth-Victorville was identified for the Comprehensive Support and Improvement plan based on our 66.45% graduation rate. The plan will reflect and evaluate current programs and practices and access needed adjustments to ensure an increase in our overall graduation rates. Current data was shared with all stakeholders and through a collaborative process. The plan developed will address the need to increase our grad rates, as well all of the red and orange dashboard indicators.

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

The school developed this plan through a needs assessment, resource inequity review, and with evidence based interventions to address the needs of the students. All stakeholders were involved in the development of this plan though information sessions, review of data, surveys, and other modalities.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this plan? What did the involvement process for the CSI plan, needs assessment, and resource inequities

We are utilizing our WASC process as our needs assessment. We involved stakeholders through our LCAP surveys, PLCs to review student data, school site level meetings, and schoolwide meetings to review data. We used each of these process to drive instruction, and identify changes that need to be made in our instruction process to address any resource inequities as well.

Resource Inequities

In the WASC process or needs assessment four goals were created to address areas of need. Each of these were examined by stakeholders to determine if there are still areas to increase support for students.

Goal 1 Increase Student achievement of EL Students

- 1. We have increased the support to our EL program by 1 ½ staff members over the 2018/2019 school year. This was an increase in our Instructional Spend.*
- 2. We had specific trainings in the SIOP Strategies and creating SIOP lesson plans. We allocated additional money for these trainings.*

3. *We are adding specific ELD Direct Instruction curriculum to our EL Program. We are utilizing the iLit curriculum through Pearson, and will be implementing this curriculum in the 2019/2020 school year at all of our locations. This is an increase to our Instructional Spend.*

Goal 2 Increase student achievement by ensuring that students receive support and instruction focused on social-emotional development, in order to increase graduation rates and better prepare students for their post-secondary goals.

1. *We added a Student Advisor to our team in the 2018/2019 school year. This has brought us up to 1 Student Advisor per school site. This gives us a ratio of about 300 to 1 for our students. This is an increase to our Instructional Spend.*
2. *We have increased the number of social emotional opportunities for our students to be involved in. These opportunities include specific classes, student groups, sports, and Pathways field trips. We allocated additional money to support these programs.*

Goal 3 Increase student achievement by increasing support and instruction in Math and English.

1. *In 2018/2019 we have shifted from a traditional math sequence to an Integrated Math sequence. We added Integrated Math 1 to our program in the 2018/2019 school year. We will be adding Integrated Math to our program in the 2019/2020 school year. This is a collaborative process involved all of our Math Teachers. We are allocating additional money to support the development of this program.*
2. *We have increased the number of staff members that are trained in our ERWC Curriculum. We added the ERWC program to our Middle School program. This curriculum is now utilized by all of our English Teachers. We are having all of our English teachers going to trainings in the 2019/2020 to become familiar with the changes in the program. We have allocated additional money to support the development of this program.*

Goal 4 Increase student achievement by ensuring that students increase the number of units completed during the school year for core academic completion.

1. *We have increased the number of small group instruction classes in core subjects to meet this goal. We have added Social Science and AP English to our small group instruction classes. This is an increase to our instructional spend.*
2. *We are utilizing PLCs to develop Smart Goals to increase the number of core units that are being completed throughout the year. We have allocated additional money to support this process.*

Goals, Strategies, Expenditures, & Annual Review

Goal Indicator 1

Goal 1: To increase our 2-year average graduation rate to over 67%.

We will utilize the RenSTAR testing program to identify the academic level of our students. This testing takes place three times a year. All students that are identified as level one students will be required to utilize Achieve 3000 and/or Accelerated Math to increase their score on the next administration.

Graduation Rate: Our goal is to increase our 2-year average graduation rate to over 67%

Identified plan to increase student achievement for this indicator

Goal 1: Our graduation rate 2-year average is currently at 66.45%. Our goal is to increase our 2-year average graduation rate to over 67%

A Student Intervention Team consisting of the Independent Study Teacher, Small group Instruction Teacher, and Assistant Principal will utilize the RenSTAR testing program to identify the academic level of our students. This testing takes place 3 times a year. All students that are identified as level one students will be required to utilize Achieve 3000 and/or Accelerated Math to increase their academic level on the next RenSTAR testing administration.

Annual Measurable Outcomes

The Ren Star test is administered to all students three times throughout the year. Each administration window is one-week long.

Student data will be assessed by the Student Intervention Team in the two weeks following the administration of the test.

All students who are identified at a 1 academic level of 1, will be required to be enrolled into an Achieve 3000 and/or Accelerated Math class.

The Student Intervention Team will Monitor the academic progress of each of these students on a monthly basis. The goal will be to increase the student to an academic level of 2 by the next testing administration.

Metric/Indicator Baseline/Actual Outcome Expected Outcome

Graduation Rate	66.45%	67%
-----------------	--------	-----

Strategy/Activity 1

Students to be served by this Strategy/Activity or evidence based intervention.

EVIDENCE-BASED INTERVENTIONS

Guidance and Instructions: All CSI schools must implement Evidence-Based Interventions as part of their improvement plan. The term “intervention” can include *activities, strategies, or interventions*. Complete questions 1 through 5 for *each* evidence-based intervention that will be implemented.

1. Dashboard Indicator: Indicate all Dashboard Indicators that this evidence-based intervention addresses.

- | | |
|--|---|
| <input type="checkbox"/> English Language Arts (3-8,11) | <input type="checkbox"/> Suspension Rate (TK-12) |
| <input checked="" type="checkbox"/> Mathematics (3-8,11) | <input type="checkbox"/> College/Career (9-12) |
| <input type="checkbox"/> English Learner Progress (1-12) | <input checked="" type="checkbox"/> <u>Graduation Rate (9-12)</u> |
| <input type="checkbox"/> Chronic Absenteeism (TK-12) | |

2. Evidence Rating: Indicate the Evidence Rating for the intervention (see p. 7 of guidance [here](#)).

✓ Strong, Moderate, Promising

3. Rating Rationale: Indicate the source that was used to determine the rating.

✓ What Works Clearinghouse

☐ LAUSD Evidence-Based Intervention Bench

☐ Evidence for ESSA

☐ Other-Specify and Provide Link to Study: _____

4. Intervention Status: Indicate if this is a new or continuing Intervention.

✓ New

☐ Continuing

N/A new

5. Evidence-Based Intervention Name and link to study

Accelerated Math: <https://doc.renlearn.com/KMNet/R61325.pdf>

Strategy/Activity 2

1. Dashboard Indicator: Indicate all Dashboard Indicators that this evidence-based intervention addresses.

✓ English Language Arts (3-8,11)

☐ Mathematics (3-8,11)

☐ English Learner Progress (1-12)

☐ Chronic Absenteeism (TK-12)

☐ Suspension Rate (TK-12)

☐ College/Career (9-12)

✓ Graduation Rate (9-12)

2. Evidence Rating: Indicate the Evidence Rating for the intervention (see p. 7 of guidance [here](#)).

✓ Strong, Moderate, Promising

3. Rating Rationale: Indicate the source that was used to determine the rating.

✓ What Works Clearinghouse

☐ LAUSD Evidence-Based Intervention Bench

✓ Evidence for ESSA

☐ Other-Specify and Provide Link to Study: _____

4. Intervention Status: Indicate if this is a new or continuing Intervention.

✓ New

☐ Continuing

N/A new

5. Evidence-Based Intervention Name and link to study

Achieve 3000

<https://www.evidenceforessa.org/programs/reading/middlehigh-school/achieve3000-secondary>

Monitoring of progress

Students that are identified with this process will be monitored on a monthly basis. Student academic progress will be monitored throughout the school month. Students who are not making adequate academic progress will have a report sent home to the parent. The Student Intervention Team will determine if a parent teacher conference is necessary.

Proposed Expenditures for this Strategy/Activity

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

Amount(s)	Source(s)
\$220,386.75 Student academic resources/Educational technology resources and Professional Development opportunities	LCFF-LCAP

Goal Indicator 2

Goal 2: To increase our scores on English Language Arts standardized testing.

We will utilize the RenSTAR testing program to identify the academic level of our students. This testing takes place 3 times a year. All students that are identified as level one students will be required to utilize Achieve 3000 to increase their score on the next administration.

English Language Arts

Identified plan to increase student achievement for this indicator

Goal 2: We are currently at 40.4 points below standard in English Language Arts. Our goal is to increase that number by 5 points over the next school year.

A Student Intervention Team consisting of the Independent Study Teacher, Small group Instruction Teacher, and Assistant Principal will utilize the RenSTAR testing program to identify the academic level of our students. This testing takes place 3 times a year. All students that are identified as level one students will be required to utilize Achieve 3000 to increase their academic level in English on the next RenSTAR testing administration. This will lead to an increase in their SBAC score.

Annual Measurable Outcomes

The Ren Star test is administered to all students three times throughout the year. Each administration window is one-week long.

Student data will be assessed by the Student Intervention Team in the two weeks following the administration of the test.

All students who are identified at a 1 academic level of 1, will be required to be enrolled into an Achieve 3000.

The Student Intervention Team will Monitor the academic progress of each of these students on a monthly basis. The goal will be to increase the student to an academic level of 2 by the next testing administration.

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
English Language Arts	40.4 points below standard	35.4 points below standard
Student participation in Achieve 3000	Students who score a 1 on the RenSTAR test will participate in Achieve 3000	60% of students who score a 1 on the RenSTAR test will participate in Achieve 3000
Students will increase their scores on Ren Star	Students who participate in Achieve 3000 will show an increase in their RenSTAR scores.	60% of students who participated in Achieve 3000 will achieve an increase from a score of 1 to a 2 on the next testing administration.

Strategy/Activity 3

1. Dashboard Indicator: Indicate all Dashboard Indicators that this evidence-based intervention addresses.

- ☒ English Language Arts (3-8,11)
- ☐ Mathematics (3-8,11)
- ☒ English Learner Progress (1-12)
- ☐ Chronic Absenteeism (TK-12)
- ☐ Suspension Rate (TK-12)
- ☐ College/Career (9-12)
- ☒ Graduation Rate (9-12)

2. Evidence Rating: Indicate the Evidence Rating for the intervention (see p. 7 of guidance [here](#)).

- ☒ Strong, Moderate, Promising

3. Rating Rationale: Indicate the source that was used to determine the rating.

- ☒ What Works Clearinghouse
- ☐ LAUSD Evidence-Based Intervention Bench
- ☐ Evidence for ESSA
- ☐ Other-Specify and Provide Link to Study: _____

4. Intervention Status: Indicate if this is a new or continuing Intervention.

- ☒ New
- ☐ Continuing

N/a New

5. Evidence-Based Intervention Name and link to study

Achieve 3000
<https://www.evidenceforessa.org/programs/reading/middlehigh-school/achieve3000-secondary>

Monitoring of progress

Students that are identified with this process will be monitored on a monthly basis. Student academic progress will be monitored throughout the school month. Students who are not making adequate academic progress will have a report sent home to the parent. The Student Intervention Team will determine if a parent teacher conference is necessary.

Proposed Expenditures for this Strategy/Activity

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

Amount(s)	Source(s)
\$73,462.25 Student academic resources/Educational technology resources and Professional Development opportunities	LCFF-LCAP

Goal Indicator 3

Goal 3: To increase our Mathematics score on standardized testing

We will utilize the RenSTAR testing program to identify the academic level of our students. This testing takes place 3 times a year. All students that are identified as level one students will be required to utilize Accelerated Math to increase their score on the next administration.

Mathematics

Identified plan to increase student achievement for this indicator

Goal 3: We are currently at 136.9 points below standard in Mathematics. Our goal is to increase that number by 5 points over the next school year.

A Student Intervention Team consisting of the Independent Study Teacher, Small group Instruction Teacher, and Assistant Principal will utilize the RenSTAR testing program to identify the academic level of our students. This testing takes place 3 times a year. All students that are identified as level one students will be required to utilize Accelerated Math to increase their academic level on the next RenSTAR testing administration. This will lead to an increase in their SBAC score.

Annual Measurable Outcomes

The RenSTAR test is administered to all students three times throughout the year. Each administration window is one week long.

Student data will be assessed by the Student Intervention Team in the two weeks following the administration of the test.

All students who are identified at a 1 academic level of 1, will be required to be enrolled into an Accelerated Math class.

The Student Intervention Team will Monitor the academic progress of each of these students on a monthly basis. The goal will be to increase the student to an academic level of 2 by the next testing administration.

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
Mathematics	136.9 points below standard	131.9 points below standard
Student participation in Accelerated Math	Students who score a 1 on the RenSTAR test will participate in Accelerated Math	60% of students who score a 1 on the RenSTAR test will participate in Accelerated Math
Students will increase their scores on RenSTAR	Students who participate in Accelerated Math will show an increase in their RenSTAR scores.	60% of students who participated in Accelerated Math will achieve an increase from a score of 1 to a 2 on the next testing administration.

Strategy/Activity 4

1. Dashboard Indicator: Indicate all Dashboard Indicators that this evidence-based intervention addresses.

- | | |
|--|--|
| <input type="checkbox"/> English Language Arts (3-8, 11) | <input type="checkbox"/> Suspension Rate (TK-12) |
| <input checked="" type="checkbox"/> Mathematics (3-8, 11) | <input type="checkbox"/> College/Career (9-12) |
| <input type="checkbox"/> English Learner Progress (1-12) | <input type="checkbox"/> Graduation Rate (9-12) |
| <input type="checkbox"/> Chronic Absenteeism (TK-12) | |

2. Evidence Rating: Indicate the Evidence Rating for the intervention (see p. 7 of guidance [here](#)).

☐ Continuing

If continuing please explain. N/A New

5. Evidence-Based Intervention Name and link to study

Accelerated Math: <https://doc.renlearn.com/KMNet/R61325.pdf>

Monitoring of progress

Students that are identified with this process will be monitored on a monthly basis. Student academic progress will be monitored throughout the school month. Students who are not making adequate academic progress will have a report sent home to the parent. The Student Intervention Team will determine if a parent teacher conference is necessary.

Proposed Expenditures for this Strategy/Activity

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

Amount(s)	Source(s)
\$73,462.25 Student academic resources/Educational technology resources and Professional Development opportunities	LCFF-LCAP

Goal Indicator 4

Goal 4: To increase our College and Career Prepared rate.

We will increase our Career and College Prepared rate of our students by increasing our CTE offerings and certification opportunities for our students.

College and Career Readiness

Identified plan to increase student achievement for this indicator

Goal 4: Our College and Career Prepared rate at 3.4%. Our goal is to increase our College and Career Prepared rate by 2%.

We will increase our Career and College preparedness rate by increasing our offering in our construction pathway, and by adding 2 additional pathways in the new school year. The two new pathways will be based upon the student career interest inventory that is done with students when they enroll. We will begin a dual enrollment program with Victor Valley College.

Annual Measurable Outcomes

We will increase the opportunities for students in the areas of construction and solar. The goal will be to get more students involved in these programs

Our Student Advisors will look at the student interest inventory to determine the two new pathways that need to be added to our program. We will look at this information in the month of September and begin building the programs. We will have the programs up and running by second semester.

The Student Advisors, Assistant Principals, and Independent Study Teachers will recruit students for these programs based upon student interest.

The team will follow up with students on a monthly basis to determine progress in these classes.

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
College and Career Readiness	3.4%	5.4%

Budget Summary

Complete the table below. Schools may include additional information. Adjust the table as needed.

DESCRIPTION	AMOUNT
Total Funds Budgeted for Strategies to Meet the Goals in the plan	\$293,849.00

Appendix B: New/Revised Core Courses

Dual Enrollment (created)

Dual Enrollment Support A is a course designed to guide and enhance students experience as first time college students. In this course, students will learn many proven strategies for creating both academic and personal growth through readings, lectures, discussions, activities, and reflective journal writing. In addition, students will learn to express themselves professionally by practicing effective communication, college-level writing, and public speaking / presentation. Most importantly, students will establish themselves as independent college students with the skills, habits and mindsets for a balanced and successful college experience.

Throughout the course, students will read proficiently to gather, analyze and evaluate information, apply independent study skills to develop competency with the habits of mind needed for college success, model thinking and behavior expected of college students, apply reasoning to make responsible choices, and make, justify, and critique the arguments of themselves and others.

Upon completion of the course, students will have mastery in all of the topics and skills listed above and will have real life further developed skills in reasoning, argument, multimedia communication, and social-emotional domains.

English 9 A/B (created)

The purpose of English 9 A/B is to expose students to various forms of fiction and nonfiction. Students will understand an assortment of literary concepts, including point of view, author's' purpose and literary analysis. This course will allow students to increase reading comprehension by making predictions, analysis of structure and format and inferences. This course is designed to expose students to a wide array of texts and concepts in order to prepare them for future English courses in which they will work through increasingly difficult literary concepts and ideas, both abstract and concrete in nature. Students will work through a number of Common Core standards as they structure multiple academic essays to increase writing skills. Finally, students will engage with questions about communication and conflict as they connect all of their readings to the world in which they live these days.

Health A/B (revised)

Health A will concentrate on the concepts of wellness, health risks, personality, mental health, self-esteem, and expression of emotions. Students will also be exposed to an understanding of stress, responses to stress, and stress management. Students will study family roles and changes in family structures which have occurred. Also explored in this course are human reproduction, heredity, and human development. This course shall conclude with lessons in nutrition, malnutrition, diet planning, and being a wise consumer regarding food choices. HS Health has been updated to include required instruction on HIV/AIDS prevention education and affirmative consent. The course now includes medically accurate instruction on the nature of HIV/AIDS and its effects, methods of transmission, strategies to reduce the risk of infection, and social and public health issues related to HIV/AIDS. In addition, students will study the effectiveness and safety of all FDA-approved contraceptive methods in preventing unplanned pregnancy. High school students will be provided the knowledge and skills to form healthy relationships free from violence, coercion, and intimidation with a comprehensive study of affirmative consent/"Yes Means Yes". Lastly, students will be instructed on hands-only CPR training and the Automated External Defibrillator (AED), and demonstrate hands-only CPR with an on-site CPR manikin.

Health B, has a focus on the human skeletal, muscular, nervous, respiratory, and cardiovascular systems. Students will explore the elements of physical fitness and the importance of suitable exercise programs. An area of emphasis in Health B will highlight the use and abuse of prescription and illegal drugs. Students shall explore the body's effect of alcohol use and abuse and issues regarding social pressures to consume alcohol. Also studied is the harmful effects of all tobacco products. Another area of emphasis in this course is the human immune system and its response to infectious and noninfectious diseases. Finally, this course shall conclude with lessons about environmental pollution and the healthcare system.

Physical Science (revised)

Upon successful completion of Physical Science A, students will be able to communicate their findings using scientific observations, data collections and analyses. They will be able to use appropriate tools to perform investigations and understand how science is incorporated in our lives. In this semester of the course, students will focus on the chemical aspect of physical science. Students will understand characteristics of various materials and provide explanations of their behaviors by analyzing their molecular composition. Students will practice writing and validating scientific reports and justify their findings using graphs, tables and stoichiometric calculations to show their quantitative and qualitative data. Students will also gain the experience necessary to perform simple lab techniques such as measuring, filtering and diluting. Due to the high rigor of this class, knowledge of algebra 1 is highly recommended.

Upon successful completion of Physical Science B, students will be able to communicate their findings using scientific observations, data collections and analyses. They will be able to use appropriate tools to perform investigations and understand how science is incorporated in our lives. In this semester of the course, students will focus on the physics aspect of physical science. Students will be exposed to scientific theories and laws that are used to predict, manipulate and explain common macroscopic interactions. Students will understand Newton's laws that govern motion, energy transfers on earth through waves, electricity and magnetism and their work on the system. Students will also have the opportunity to analyze modern technologies and provide suggestions on how technology will impact our future. Due to the high rigor of this class, knowledge of algebra 1 is highly recommended.

Technology Literacy (created)

This 10-unit course offers students a comprehensive, *interactive* tour through Google's G Suite applications. Students will be given multiple opportunities to display creativity using tools such as Google Docs, Slides, and Sheets. Throughout the course, students will also be learning about and practicing good Digital Citizenship. At the completion of this course, students will be prepared to successfully complete Google's G Suite industry certification examination.

US Government (revised)

In this course, students will survey the scope of our government from its fruition, development and actualization, structure and function, to its relevance in our lives today in a democratic society. Students will begin learning about the foundations and unique characteristics of the American democracy through reading fundamental documents as the Declaration of Independence and the U.S. Constitution. Students will study the different branches of government and how they uphold the principles of separation of powers and checks and balances influence from Enlightenment philosophers as well as how the Framers of the Constitution drafted the document to allow for its adoption and application throughout time. Students will also study the creation of the judicial branch and study key important Supreme Court cases that created new laws set in place to protect our civil rights. Students will learn about the different levels of government from national, state, to local governments that provide public services to represent the interests and to protect the rights of the constituents. Students will trace the election process and learn how public opinion can influence the government. Through this understanding, students will understand the importance of their active civic participation and construct their own unique service learning project. Lastly, students will compare the American democracy with democracies around the world to distinguish the similarities and differences as well as to understand why the United States engage in foreign affairs.

US History (created)

United States History A is a five-unit course in which students will examine United States History from the beginnings of America to the present. Students will begin with an examination of America's beginnings from the 1607 -1824. Students will then look at the growth, reform, and lasting effects associated with the Civil War. They will study how industry and immigration led to the Gilded Age from 1865-1914. Students will examine the progressive era from 1890 to 1920 to understand the drive for reform and several civil rights movements of this time. Additionally, they will study imperialism, conflict, and World War I from 1890 to 1920.

United States History B is a five-unit course in which students will examine United States History from the 1920s to the present. Students will begin with an examination of the Roaring 20s, the Great Depression, and the New Deal from 1919-1941. Students will then look at the isolation, involvement, and the home front during World War II and the Cold War from 1931 to 1960. They will study civil rights, protest, and change in America

from 1945-1960. Students will examine the events that surrounded the Watergate years to understand the drive for reform and the lasting impacts of America's crisis in confidence from 1968-1980. Additionally, students will study the characteristics of the end of the 20th century and the challenges that face Americans in the 21st century.

World Geography A/B (created)

World Geography A is a five-unit course in which students will examine the perspectives of the human and physical world. Students will create written responses throughout their studies to establish prior knowledge and to make connections with what they know and new information regarding the world around them. In the first semester of this course, students will begin with an examination of the World, which will include how geographers look at the world. This will include examinations of the physical world, climates of Earth, as well as the human world. Students will then look at the United States and Canada. They will then study Latin America, which will include Mexico, Central and South America, as well as the Caribbean. Students will then explore all of Europe, including the Russian Core. Students will complete the first semester of World Geography with an examination of North Africa as well as Southwest and Central Asia.

World Geography B is a five-unit course in which students will examine the perspectives of the human and physical world. Students will create written responses throughout their studies to establish prior knowledge and to make connections with what they know and new information regarding the world around them. In the second semester of this course, students will begin with an examination of Africa South of the Sahara. Students will then look at the countries of South Asia. They will continue to broaden their understanding by studying East Asia. Students will then examine Southeast Asia and the Pacific World. Students will finalize their study of World Geography by studying topics that pose great challenges to the world and will explore a variety of sources to broaden their understandings in these areas.

Appendix D: Individualized Learning Plan (ILP) Form

The ILP is documentation of a student coaching conversation that outlines the student's high school and post-secondary goals and needs in order to make regular progress toward those goals. Additionally, it aids in providing students with a connection to academic, program, and extra-curricular supports and resources in order to graduate from high school prepared for success in their chosen post-secondary pathway.

Student Individualized Learning Plan (ILP)

The purpose of this ILP is to facilitate a student coaching conversation that outlines the student's goals and regular progress toward those goals. Additionally, this conversation will aid in providing students with a connection to academic, program, and extra-curricular supports and resources in order to graduate from high school prepared for success in their chosen college and career.

- ☐ ELL
- ☐ FRMP
- ☐ Homeless

Appendix E: Parent & Student Focus Group Presentation

Local Control & Accountability Plan (LCAP)

2018-2019

What is LCFF & LCAP?

LCFF

The Local Control Funding Formula (LCFF) is the *funding calculator* the state uses to produce the amount of *extra money* our school will receive for our 3 subgroups of students, Foster youth, Low-Income (Free & Reduced lunch/FRMP), and English Learners.

LCAP

The Local Control Accountability Plan (LCAP) is an important component of the Local Control Funding Formula (LCFF). Under the LCFF all schools in California are required to prepare a LCAP, which describes how they intend to meet annual goals for all students, with specific activities to address identified state and local priorities. The LCAP is a document outlining how we plan to spend the extra money (LCFF) we get from the state for our Foster youth, Low-Income (Free & Reduced lunch/FRMP), and English Learners. In the LCAP we state how we intend to spend this money through 3 Goals.

California's 8 State Priorities

The state of California has 8 state priority areas in which each school needs to address in their LCAP. To the right you will see what the 8 priorities are and which of the 2018-2019 LCAP goals meet is addressing it.

- Priority 1: Basic Services- *Does not apply to charter schools via Williams Settlement legislation exemption.*
- Priority 2: Implementation of State Standards- Goal 1 & 3
- Priority 3: Parental Involvement- Goal 2
- Priority 4: Pupil Achievement- Goal 1 & 3
- Priority 5: Pupil Engagement- Goal 1 & 2
- Priority 6: School Climate- Goal 2
- Priority 7: Course Access- Goal 3
- Priority 8: Pupil Outcomes- Goal 1, 2, & 3

What does this mean for our students?

This means that additional support and resources are being provided in order to meet each student's individual needs and our LCAP goals.

Charter-Wide LCAP Goals

Goal 1:
Credit completion towards graduation is accomplished through an overall reduction in absenteeism for all students.

Goal 2:
Students will receive support and instruction focused on social-emotional development in order to increase graduation rates and better prepare students for their post-secondary pathways.

Goal 3:
Students will receive support and instruction through individualized, rigorous curriculum and will be offered resources to positively affect their progression in core courses.

Goal 1: Chronic Absenteeism

How are we achieving this goal?

- Focusing on getting our current students into the Learning Center and completing all work in a timely manner.
- Offering extra one-on-one support to our English Language Learners to become fluent in English.
- Ensuring our Foster Youth has an ILP (Individualized Learning Plan) on file.
- Tutoring.
- Ensuring students have access to technology in the learning centers.

Goal 2: Social-Emotional Development

How are we achieving this goal?

- Offering additional events, groups, sports, trips, and courses to all students. That are designed to develop social-emotional skills.
- Holding Senior signing events and graduations to celebrate the success of your students.
- Surveys to measure school safety were administered in Fall 2018 and Spring 2019.
- We will be administering the Comprehensive School Climate Inventory (CSCI) at the end of March 2019 - early April 2019, to measure parent, student and staff perceptions of safety and connectedness to our school.

Goal 3: Core Course Credit Completion

How are we achieving this goal?

- Tech in Testing is being offered to students. In this class students will learn about the technology they will use in the SBAC exam, cover some of the main content skills necessary and take a shorten practice exam. This will help students prepare and achieve higher SBAC test scores.
- Tutoring.
- Ensuring students are enrolled in core classes (Math, English, Science and Social Studies) needed to fulfill graduation requirements.
- Ensuring students have access to new/revised rigorous curriculum.
- Professional Development for our teaching staff.

Comprehensive Support and Improvement

Our school has been identified as being on Comprehensive Support and Improvement (CSI) due to having under a 65% graduation rate reported on the California School Dashboard. Due to our flexible enrollment dates students come to us on every day of the year, which affects our graduation rates. Additionally, any student that enrolls with us as an 11th grader and promotes to 12th grade in the same year is counted toward our 1 year graduation rate even if they have only been a 11th grader for a few months or days. We now need your help to develop a plan to ensure we are working toward improving our graduation rates and student achievement.

- What suggestions do you have to improve our program and student achievement?
- What type of resources can we offer to boost student achievement and school improvement?
- What concerns do you have?
- How can we ensure we are meeting ESSA graduation rates and still stay true to the nature of our program which is to help each and every student that walks through our doors, regardless of credit deficiencies or grade level.

We want to hear from you!

- What do you like most about our school?
- What suggestions do you have for us to help us improve our program?
- Why did you (or your child) come to our school?
- What keeps you (or your child) here?
- Would you recommend us to a friend/relative/co-worker/etc.? Why or why not?

Thank you!

Addendum

The Local Control and Accountability Plan (LCAP) and Annual Update Template documents and communicates local educational agencies' (LEAs) actions and expenditures to support student outcomes and overall performance. The LCAP is a three-year plan, which is reviewed and updated annually, as required. Charter schools may complete the LCAP to align with the term of the charter school's budget, typically one year, which is submitted to the school's authorizer. The LCAP and Annual Update Template must be completed by all LEAs each year.

For school districts, the LCAP must describe, for the school district and each school within the district, goals and specific actions to achieve those goals for all students and each student group identified by the Local Control Funding Formula (LCFF) (ethnic, socioeconomically disadvantaged, English learners, foster youth, pupils with disabilities, and homeless youth), for each of the state priorities and any locally identified priorities.

For county offices of education, the LCAP must describe, for each county office of education-operated school and program, goals and specific actions to achieve those goals for all students and each LCFF student group funded through the county office of education (students attending juvenile court schools, on probation or parole, or expelled under certain conditions) for each of the state priorities and any locally identified priorities. School districts and county offices of education may additionally coordinate and describe in their LCAPs services funded by a school district that are provided to students attending county-operated schools and programs, including special education programs.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in Education Code (EC) sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

Charter schools must describe goals and specific actions to achieve those goals for all students and each LCFF subgroup of students including students with disabilities and homeless youth, for each of the state priorities that apply for the grade levels served or the nature of the program operated by the charter school, and any locally identified priorities. For charter schools, the inclusion and description of goals for state priorities in the LCAP may be modified to meet the grade levels served and the nature of the programs provided, including modifications to reflect only the statutory requirements explicitly applicable to charter schools in the EC. Changes in LCAP goals and actions/services for charter schools that result from the annual update process do not necessarily constitute a material revision to the school's charter petition.

For questions related to specific sections of the template, please see instructions below:

Instructions: Linked Table of Contents

[Plan Summary](#)

[Annual Update](#)

[Stakeholder Engagement](#)

[Goals, Actions, and Services](#)

[Planned Actions/Services](#)

[Demonstration of Increased or Improved Services for Unduplicated Students](#)

For additional questions or technical assistance related to completion of the LCAP template, please contact the local county office of education, or the CDE's Local Agency Systems Support Office at: 916-319-0809 or by email at: lcff@cde.ca.gov.

Plan Summary

The LCAP is intended to reflect an LEA's annual goals, actions, services and expenditures within a fixed three-year planning cycle. LEAs must include a plan summary for the LCAP each year.

When developing the LCAP, enter the appropriate LCAP year, and address the prompts provided in these sections. When developing the LCAP in year 2 or year 3, enter the appropriate LCAP year and replace the previous summary information with information relevant to the current year LCAP.

In this section, briefly address the prompts provided. These prompts are not limits. LEAs may include information regarding local program(s), community demographics, and the overall vision of the LEA. LEAs may also attach documents (e.g., the California School Dashboard data reports) if desired and/or include charts illustrating goals, planned outcomes, actual outcomes, or related planned and actual expenditures.

An LEA may use an alternative format for the plan summary as long as it includes the information specified in each prompt and the budget summary table.

The reference to California School Dashboard means the California School Dashboard adopted by the State Board of Education under *EC* Section 52064.5.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Annual Update

The planned goals, expected outcomes, actions/services, and budgeted expenditures must be copied verbatim from the previous year's* approved LCAP; in addition, list the state and/or local priorities addressed by the planned goals. Minor typographical errors may be corrected.

* For example, for LCAP year 2017/18 of the 2017/18 – 2019/20 LCAP, review the goals in the 2016/17 LCAP. Moving forward, review the goals from the most recent LCAP year. For example, LCAP year 2020/21 will review goals from the 2019/20 LCAP year, which is the last year of the 2017/18 – 2019/20 LCAP.

Annual Measurable Outcomes

For each goal in the prior year, identify and review the actual measurable outcomes as compared to the expected annual measurable outcomes identified in the prior year for the goal.

Actions/Services

Identify the planned Actions/Services and the budgeted expenditures to implement these actions toward achieving the described goal. Identify the **actual** actions/services implemented to meet the described goal and the estimated actual annual expenditures to implement the actions/services. As applicable, identify any changes to the students or student groups served, or to the planned location of the actions/services provided.

Analysis

Using actual annual measurable outcome data, including data from the California School Dashboard, analyze whether the planned actions/services were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions/services to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the data provided in the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Stakeholder Engagement

Meaningful engagement of parents, students, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. *EC* identifies the minimum consultation requirements for school districts and county offices of education as consulting with teachers, principals, administrators, other school personnel, local bargaining units of the school district, parents, and pupils in developing the LCAP. *EC* requires charter schools to consult with teachers, principals, administrators, other school personnel, parents,

and pupils in developing the LCAP. In addition, *EC* Section 48985 specifies the requirements for the translation of notices, reports, statements, or records sent to a parent or guardian.

The LCAP should be shared with, and LEAs should request input from, school site-level advisory groups, as applicable (e.g., school site councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between school-site and district-level goals and actions. An LEA may incorporate or reference actions described in other plans that are being undertaken to meet specific goals.

Instructions: The stakeholder engagement process is an ongoing, annual process. The requirements for this section are the same for each year of a three-year LCAP. When developing the LCAP, enter the appropriate LCAP year, and describe the stakeholder engagement process used to develop the LCAP and Annual Update. When developing the LCAP in year 2 or year 3, enter the appropriate LCAP year and replace the previous stakeholder narrative(s) and describe the stakeholder engagement process used to develop the current year LCAP and Annual Update.

School districts and county offices of education: Describe the process used to consult with the Parent Advisory Committee, the English Learner Parent Advisory Committee, parents, students, school personnel, the LEA's local bargaining units, and the community to inform the development of the LCAP and the annual review and analysis for the indicated LCAP year.

Charter schools: Describe the process used to consult with teachers, principals, administrators, other school personnel, parents, and students to inform the development of the LCAP and the annual review and analysis for the indicated LCAP year.

Describe how the consultation process impacted the development of the LCAP and annual update for the indicated LCAP year, including the goals, actions, services, and expenditures.

Goals, Actions, and Services

LEAs must include a description of the annual goals, for all students and each LCFF identified group of students, to be achieved for each state priority as applicable to type of LEA. An LEA may also include additional local priorities. This section shall also include a description of the specific planned actions an LEA will take to meet the identified goals, and a description of the expenditures required to implement the specific actions.

School districts and county offices of education: The LCAP is a three-year plan, which is reviewed and updated annually, as required.

Charter schools: The number of years addressed in the LCAP may align with the term of the charter schools budget, typically one year, which is submitted to the school's authorizer. If year 2 and/or year 3 is not applicable, charter schools must specify as such.

New, Modified, Unchanged

As part of the LCAP development process, which includes the annual update and stakeholder engagement, indicate if the goal, identified need, related state and/or local priorities, and/or expected annual measurable outcomes for the current LCAP year or future LCAP years are modified or unchanged from the previous year's LCAP; or, specify if the goal is new.

Goal

State the goal. LEAs may number the goals using the “Goal #” box for ease of reference. A goal is a broad statement that describes the desired result to which all actions/services are directed. A goal answers the question: What is the LEA seeking to achieve?

Related State and/or Local Priorities

List the state and/or local priorities addressed by the goal. The LCAP must include goals that address each of the state priorities, as applicable to the type of LEA, and any additional local priorities; however, one goal may address multiple priorities. ([Link to State Priorities](#))

Identified Need

Describe the needs that led to establishing the goal. The identified needs may be based on quantitative or qualitative information, including, but not limited to, results of the annual update process or performance data from the California School Dashboard, as applicable.

Expected Annual Measurable Outcomes

For each LCAP year, identify the metric(s) or indicator(s) that the LEA will use to track progress toward the expected outcomes. LEAs may identify metrics for specific student groups. Include in the baseline column the most recent data associated with this metric or indicator available at the time of adoption of the LCAP for the first year of the three-year plan. The most recent data associated with a metric or indicator includes data as reported in the annual update of the LCAP year immediately preceding the three-year plan, as applicable. The baseline data shall remain unchanged throughout the three-year LCAP. In the subsequent year columns, identify the progress to be made in each year of the three-year cycle of the LCAP. Consider how expected outcomes in any given year are related to the expected outcomes for subsequent years.

The metrics may be quantitative or qualitative, but at minimum an LEA must use the applicable required metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. For the student engagement priority metrics, as applicable, LEAs must calculate the rates as described in the [LCAP Template Appendix, sections \(a\) through \(d\)](#).

Planned Actions/Services

For each action/service, the LEA must complete either the section “For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement” or the section “For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement.” The LEA shall not complete both sections for a single action.

For Actions/Services Not Contributing to Meeting the Increased or Improved Services Requirement

Students to be Served

The “Students to be Served” box is to be completed for all actions/services except for those which are included by the LEA as contributing to meeting the requirement to increase or improve services for unduplicated students. Indicate in this box which students will benefit from the actions/services by entering “All”, “Students with Disabilities”, or “Specific Student Group(s)”. If “Specific Student Group(s)” is entered, identify the specific student group(s) as appropriate.

Location(s)

Identify the location where the action/services will be provided. If the services are provided to all schools within the LEA, the LEA must identify “All Schools”. If the services are provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

Charter schools operating more than one site, authorized within the same charter petition, may choose to distinguish between sites by entering “Specific Schools” and identifying the site(s) where the actions/services will be provided. For charter schools operating only one site, “All Schools” and “Specific Schools” may be synonymous and, therefore, either would be appropriate. Charter schools may use either term provided they are used in a consistent manner through the LCAP.

For Actions/Services Contributing to Meeting the Increased or Improved Services Requirement:

Students to be Served

For any action/service contributing to the LEA’s overall demonstration that it has increased or improved services for unduplicated students above what is provided to all students (see Demonstration of Increased or Improved Services for Unduplicated Students section, below), the LEA must identify the unduplicated student group(s) being served.

Scope of Service

For each action/service contributing to meeting the increased or improved services requirement, identify the scope of service by indicating “LEA-wide”, “Schoolwide”, or “Limited to Unduplicated Student Group(s)”. The LEA must identify one of the following three options:

- If the action/service is being funded and provided to upgrade the entire educational program of the LEA, enter “LEA-wide.”
- If the action/service is being funded and provided to upgrade the entire educational program of a particular school or schools, enter “schoolwide”.
- If the action/service being funded and provided is limited to the unduplicated students identified in “Students to be Served”, enter “Limited to Unduplicated Student Group(s)”.

For charter schools and single-school school districts, “LEA-wide” and “Schoolwide” may be synonymous and, therefore, either would be appropriate. For charter schools operating multiple schools (determined by a unique CDS code) under a single charter, use “LEA-wide” to refer to all schools under the charter and use “Schoolwide” to refer to a single school authorized within the same charter petition. Charter schools operating a single school may use “LEA-wide” or “Schoolwide” provided these terms are used in a consistent manner through the LCAP.

Location(s)

Identify the location where the action/services will be provided. If the services are provided to all schools within the LEA, the LEA must indicate “All Schools”. If the services are provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

Charter schools operating more than one site, authorized within the same charter petition, may choose to distinguish between sites by entering “Specific Schools” and identify the site(s) where the actions/services will be provided. For charter schools

operating only one site, “All Schools” and “Specific Schools” may be synonymous and, therefore, either would be appropriate. Charter schools may use either term provided they are used in a consistent manner through the LCAP.

Actions/Services

For each LCAP year, identify the actions to be performed and services provided to meet the described goal. Actions and services that are implemented to achieve the identified goal may be grouped together. LEAs may number the action/service using the “Action #” box for ease of reference.

New/Modified/Unchanged:

- Enter “New Action” if the action/service is being added in any of the three years of the LCAP to meet the articulated goal.
- Enter “Modified Action” if the action/service was included to meet an articulated goal and has been changed or modified in any way from the prior year description.
- Enter “Unchanged Action” if the action/service was included to meet an articulated goal and has not been changed or modified in any way from the prior year description.
 - If a planned action/service is anticipated to remain unchanged for the duration of the plan, an LEA may enter “Unchanged Action” and leave the subsequent year columns blank rather than having to copy/paste the action/service into the subsequent year columns. Budgeted expenditures may be treated in the same way as applicable.

Note: The goal from the prior year may or may not be included in the current three-year LCAP. For example, when developing year 1 of the LCAP, the goals articulated in year 3 of the preceding three-year LCAP will be from the prior year.

Charter schools may complete the LCAP to align with the term of the charter school’s budget that is submitted to the school’s authorizer. Accordingly, a charter school submitting a one-year budget to its authorizer may choose not to complete the year 2 and year 3 portions of the “Goals, Actions, and Services” section of the template. If year 2 and/or year 3 is not applicable, charter schools must specify as such.

Budgeted Expenditures

For each action/service, list and describe budgeted expenditures for each school year to implement these actions, including where those expenditures can be found in the LEA’s budget. The LEA must reference all fund sources for each proposed expenditure. Expenditures must be classified using the California School Accounting Manual as required by *EC* sections 52061, 52067, and 47606.5.

Expenditures that are included more than once in an LCAP must be indicated as a duplicated expenditure and include a reference to the goal and action/service where the expenditure first appears in the LCAP.

If a county superintendent of schools has jurisdiction over a single school district, and chooses to complete a single LCAP, the LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted expenditures are aligned.

Demonstration of Increased or Improved Services for Unduplicated Students

This section must be completed for each LCAP year. When developing the LCAP in year 2 or year 3, copy the “Demonstration of Increased or Improved Services for Unduplicated Students” table and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the current year LCAP. Retain all prior year sections for each of the three years within the LCAP.

Estimated Supplemental and Concentration Grant Funds

Identify the amount of funds in the LCAP year calculated on the basis of the number and concentration of low income, foster youth, and English learner students as determined pursuant to *California Code of Regulations*, Title 5 (5 CCR) Section 15496(a)(5).

Percentage to Increase or Improve Services

Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. This description must address how the action(s)/service(s) limited for one or more unduplicated student group(s), and any schoolwide or districtwide action(s)/service(s) supported by the appropriate description, taken together, result in the required proportional increase or improvement in services for unduplicated pupils.

If the overall increased or improved services include any actions/services being funded and provided on a schoolwide or districtwide basis, identify each action/service and include the required descriptions supporting each action/service as follows.

For those services being provided on an LEA-wide basis:

- For school districts with an unduplicated pupil percentage of 55% or more, and for charter schools and county offices of education: Describe how these services are **principally directed to** and **effective in** meeting its goals for unduplicated pupils in the state and any local priorities.
- For school districts with an unduplicated pupil percentage of less than 55%: Describe how these services are **principally directed to** and **effective in** meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the services are **the most effective use of the funds to** meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience or educational theory.

For school districts only, identify in the description those services being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis:

- For schools with 40% or more enrollment of unduplicated pupils: Describe how these services are **principally directed to** and **effective in** meeting its goals for its unduplicated pupils in the state and any local priorities.

- For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils: Describe how these services are **principally directed to** and how the services are **the most effective use of the funds to** meet its goals for English learners, low income students and foster youth, in the state and any local priorities.

State Priorities

Priority 1: Basic Services addresses the degree to which:

- A. Teachers in the LEA are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- B. Pupils in the school district have sufficient access to the standards-aligned instructional materials; and
- C. School facilities are maintained in good repair.

Priority 2: Implementation of State Standards addresses:

- A. The implementation of state board adopted academic content and performance standards for all students, which are:
 - a. English Language Arts – Common Core State Standards (CCSS) for English Language Arts
 - b. Mathematics – CCSS for Mathematics
 - c. English Language Development (ELD)
 - d. Career Technical Education
 - e. Health Education Content Standards
 - f. History-Social Science
 - g. Model School Library Standards
 - h. Physical Education Model Content Standards
 - i. Next Generation Science Standards
 - j. Visual and Performing Arts
 - k. World Language; and
- B. How the programs and services will enable English learners to access the CCSS and the ELD standards for purposes of gaining academic content knowledge and English language proficiency.

Priority 3: Parental Involvement addresses:

- A. The efforts the school district makes to seek parent input in making decisions for the school district and each individual school site;
- B. How the school district will promote parental participation in programs for unduplicated pupils; and
- C. How the school district will promote parental participation in programs for individuals with exceptional needs.

Priority 4: Pupil Achievement as measured by all of the following, as applicable:

- A. Statewide assessments;
- B. The percentage of pupils who have successfully completed courses that satisfy University of California (UC) or California State University (CSU) entrance requirements, or programs of study that align with state board approved career technical educational standards and framework;
- C. The percentage of English learner pupils who make progress toward English proficiency as measured by the English Language Proficiency Assessments for California (ELPAC);
- D. The English learner reclassification rate;
- E. The percentage of pupils who have passed an advanced placement examination with a score of 3 or higher; and
- F. The percentage of pupils who participate in, and demonstrate college preparedness pursuant to, the Early Assessment Program, or any subsequent assessment of college preparedness.

Priority 5: Pupil Engagement as measured by all of the following, as applicable:

- A. School attendance rates;
- B. Chronic absenteeism rates;
- C. Middle school dropout rates;
- D. High school dropout rates; and
- E. High school graduation rates;

Priority 6: School Climate as measured by all of the following, as applicable:

- A. Pupil suspension rates;
- B. Pupil expulsion rates; and
- C. Other local measures, including surveys of pupils, parents, and teachers on the sense of safety and school connectedness.

Priority 7: Course Access addresses the extent to which pupils have access to and are enrolled in:

- A. A broad course of study including courses described under *EC* sections 51210 and 51220(a)-(i), as applicable;
- B. Programs and services developed and provided to unduplicated pupils; and
- C. Programs and services developed and provided to individuals with exceptional needs.

Priority 8: Pupil Outcomes addresses pupil outcomes, if available, for courses described under *EC* sections 51210 and 51220(a)-(i), as applicable.

Priority 9: Coordination of Instruction of Expelled Pupils (COE Only) addresses how the county superintendent of schools will coordinate instruction of expelled pupils.

Priority 10. Coordination of Services for Foster Youth (COE Only) addresses how the county superintendent of schools will coordinate services for foster children, including:

- A. Working with the county child welfare agency to minimize changes in school placement
- B. Providing education-related information to the county child welfare agency to assist in the delivery of services to foster children, including educational status and progress information that is required to be included in court reports;
- C. Responding to requests from the juvenile court for information and working with the juvenile court to ensure the delivery and coordination of necessary educational services; and
- D. Establishing a mechanism for the efficient expeditious transfer of health and education records and the health and education passport.

Local Priorities address:

- A. Local priority goals; and
- B. Methods for measuring progress toward local goals.

APPENDIX A: PRIORITIES 5 AND 6 RATE CALCULATION INSTRUCTIONS

For the purposes of completing the LCAP in reference to the state priorities under *EC* sections 52060 and 52066, as applicable to type of LEA, the following shall apply:

(a) “Chronic absenteeism rate” shall be calculated as follows:

- (1) The number of K-8 students who were absent 10 percent or more of the school days excluding students who were:
 - (A) enrolled less than 31 days
 - (B) enrolled at least 31 days but did not attend at least one day
 - (C) flagged as exempt in the district attendance submission. K-8 students are considered to be exempt if they:
 - (i) are enrolled in a Non-Public School
 - (ii) receive instruction through a home or hospital instructional setting
 - (iii) are attending a community college full-time.
- (2) The number of students who meet the enrollment requirements.
- (3) Divide (1) by (2).

(b) “High school dropout rate” shall be calculated as follows:

- (1) The number of cohort members who dropout by the end of year 4 in the cohort where “cohort” is defined as the number of first-time grade 9 pupils in year 1 (starting cohort) plus pupils who transfer in, minus pupils who transfer out, emigrate, or die during school years 1, 2, 3, and 4.
- (2) The total number of cohort members.
- (3) Divide (1) by (2).

(c) “High school graduation rate” shall be calculated as follows:

- (1) For a 4-Year Cohort Graduation Rate:
 - (A) The number of students in the cohort who earned a regular high school diploma by the end of year 4 in the cohort.
 - (B) The total number of students in the cohort.
 - (C) Divide (1) by (2).
- (2) For a Dashboard Alternative Schools Status (DASS) Graduation Rate:
 - (A) The number of students who either graduated as grade 11 students or who earned any of the following:
 - (i) a regular high school diploma
 - (ii) a High School Equivalency Certificate
 - (iii) an adult education diploma
 - (iv) a Certificate of Completion and was eligible for the California Alternative Assessment if under the age of 20.

(B) The number of students in the DASS graduation cohort.

(C) Divide (1) by (2).

(d) “Suspension rate” shall be calculated as follows:

(1) The unduplicated count of pupils involved in one or more incidents for which the pupil was suspended during the academic year (July 1 – June 30).

(2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).

(3) Divide (1) by (2).

(e) “Expulsion rate” shall be calculated as follows:

(1) The unduplicated count of pupils involved in one or more incidents for which the pupil was expelled during the academic year (July 1 – June 30).

(2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).

(3) Divide (1) by (2).

NOTE: Authority cited: Sections 42238.07 and 52064, *Education Code*. Reference: Sections 2574, 2575, 42238.01, 42238.02, 42238.03, 42238.07, 47605, 47605.6, 47606.5, 48926, 52052, 52060, 52061, 52062, 52063, 52064, 52066, 52067, 52068, 52069, 52070, 52070.5, and 64001,; 20 U.S.C. Sections 6312 and 6314.

APPENDIX B: GUIDING QUESTIONS

Guiding Questions: Annual Review and Analysis

- 1) How have the actions/services addressed the needs of all pupils and did the provisions of those services result in the desired outcomes?
- 2) How have the actions/services addressed the needs of all subgroups of pupils identified pursuant to *EC* Section 52052, including, but not limited to, English learners, low-income pupils, and foster youth; and did the provision of those actions/services result in the desired outcomes?
- 3) How have the actions/services addressed the identified needs and goals of specific school sites and were these actions/services effective in achieving the desired outcomes?
- 4) What information (e.g., quantitative and qualitative data/metrics) was examined to review progress toward goals in the annual update?
- 5) What progress has been achieved toward the goal and expected measurable outcome(s)? How effective were the actions and services in making progress toward the goal? What changes to goals, actions, services, and expenditures are being made in the LCAP as a result of the review of progress and assessment of the effectiveness of the actions and services?
- 6) What differences are there between budgeted expenditures and estimated actual annual expenditures? What were the reasons for any differences?

Guiding Questions: Stakeholder Engagement

- 1) How have applicable stakeholders (e.g., parents and pupils, including parents of unduplicated pupils and unduplicated pupils identified in *EC* Section 42238.01; community members; local bargaining units; LEA personnel; county child welfare agencies; county office of education foster youth services programs, court-appointed special advocates, and other foster youth stakeholders; community organizations representing English learners; and others as appropriate) been engaged and involved in developing, reviewing, and supporting implementation of the LCAP?
- 2) How have stakeholders been included in the LEA's process in a timely manner to allow for engagement in the development of the LCAP?
- 3) What information (e.g., quantitative and qualitative data/metrics) was made available to stakeholders related to the state priorities and used by the LEA to inform the LCAP goal setting process? How was the information made available?
- 4) What changes, if any, were made in the LCAP prior to adoption as a result of written comments or other feedback received by the LEA through any of the LEA's engagement processes?
- 5) What specific actions were taken to meet statutory requirements for stakeholder engagement pursuant to *EC* sections 52062, 52068, or 47606.5, as applicable, including engagement with representatives of parents and guardians of pupils identified in *EC* Section 42238.01?
- 6) What specific actions were taken to consult with pupils to meet the requirements 5 *CCR* Section 15495(a)?

- 7) How has stakeholder involvement been continued and supported? How has the involvement of these stakeholders supported improved outcomes for pupils, including unduplicated pupils, related to the state priorities?

Guiding Questions: Goals, Actions, and Services

- 1) What are the LEA's goal(s) to address state priorities related to "Conditions of Learning": Basic Services (Priority 1), the Implementation of State Standards (Priority 2), and Course Access (Priority 7)?
- 2) What are the LEA's goal(s) to address state priorities related to "Pupil Outcomes": Pupil Achievement (Priority 4), Pupil Outcomes (Priority 8), Coordination of Instruction of Expelled Pupils (Priority 9 – COE Only), and Coordination of Services for Foster Youth (Priority 10 – COE Only)?
- 3) What are the LEA's goal(s) to address state priorities related to parent and pupil "Engagement": Parental Involvement (Priority 3), Pupil Engagement (Priority 5), and School Climate (Priority 6)?
- 4) What are the LEA's goal(s) to address any locally-identified priorities?
- 5) How have the unique needs of individual school sites been evaluated to inform the development of meaningful district and/or individual school site goals (e.g., input from site level advisory groups, staff, parents, community, pupils; review of school level plans; in-depth school level data analysis, etc.)?
- 6) What are the unique goals for unduplicated pupils as defined in *EC* Section 42238.01 and groups as defined in *EC* Section 52052 that are different from the LEA's goals for all pupils?
- 7) What are the specific expected measurable outcomes associated with each of the goals annually and over the term of the LCAP?
- 8) What information (e.g., quantitative and qualitative data/metrics) was considered/reviewed to develop goals to address each state or local priority?
- 9) What information was considered/reviewed for individual school sites?
- 10) What information was considered/reviewed for subgroups identified in *EC* Section 52052?
- 11) What actions/services will be provided to all pupils, to subgroups of pupils identified pursuant to *EC* Section 52052, to specific school sites, to English learners, to low-income pupils, and/or to foster youth to achieve goals identified in the LCAP?
- 12) How do these actions/services link to identified goals and expected measurable outcomes?
- 13) What expenditures support changes to actions/services as a result of the goal identified? Where can these expenditures be found in the LEA's budget?

Prepared by the California Department of Education, January 2019
