

Questions and Answers to RFP's # 120,121 and 122

Attachment D/Question 6. As a privately-owned company, we do not publicly disclose any financial statements. Is a letter from a certified public accountant verifying the financial health and stability of our company satisfactory for this requirement?

Yes, as long as the company can attest that it has the financial standing necessary to perform the services under the RFP to OFY-VV's satisfaction.

Question - If awarded, what date would a draft contract be needed by?

A: Staff will evaluate the proposals on September 13-14 and, once notified by OFY-VV, will require a draft agreement by September 15, 2021 from the vendor that will be recommended to the OFY-VV Board of Directors. Please prepare accordingly. The Board of Directors will consider approving the recommended agreement at its meeting on September 24, 2021.

Q: Can you please elaborate and clarify on the reports and regulators referenced in section VII, under General Support #1 of the Ed-Services #120 RFP? "Oversee the preparation and submission of all required reports to the charter authorizer and other regulators by the designated deadline".

A: OFY-VV may be required to submit various reports to the Victor Valley Union High School District, such as accounting reports, academic data, educational plans, teaching credential reports, attendance reports, etc. We are seeking general assistance with preparing and submitting any required reports to the extent there is overlap with the educational services provided by the vendor. For example, our budgets are prepared by our back office services provider but the budgeting process may require input from the educational services provider.

Q. Do we need to provide all the services listed in the RFP?

A. No, Please respond to only the Scope of Services your company can provide. It is not required that you provide all the services listed .
